

COURT HEAR SMALL'S PROTEST

MILK WILL NOT BE SOLD HERE BY ASSO'N MEMBERS

MEETING HELD AND AGREEMENT MADE BY FARMERS ON PRICE.

MAY SELL RETAIL

Janesville Company Says it Can Still Buy Plenty of Milk.

Skirmishing in the Janesville milk war was ended, and a bitter struggle declared against the Janesville Pure Milk company during the milk producers' meeting in the West side I. O. O. F. hall on Thursday night. The milk will not be sold here by association members.

The Janesville Pure Milk company declared that they had more than enough milk to meet all their demands. The company's declaration that they would be able to obtain sufficient supply of good milk, no matter what means were taken by the organized farmers to limit their delivery, was not worshipping for we can get tons of milk, it was stated.

Denial was made that the Pure Milk company owed the market. The company's declaration that they have a cent coming they can get it, it was stated.

There were six of the producers on the job Friday morning, receiving milk from the Pure Milk company station, to be set to one side and then reloaded on a big truck which delivered the cans to the milk.

Producers brought up their heavy artillery into range with the determination to use more radical means to enforce marketing company prices among all Janesville distributors.

They resolved to stop the supply of fluid milk to three Janesville distributors, the Janesville Pure Milk company, Shurtliff Ice Cream company and the Cronin Dairy company. It was agreed that the milk will be sold milk for six cents a quart at the station and nine cents delivered, to "undercut the distributors."

"We will fight it out all summer—and all winter, if necessary," it was declared during the meeting attended by more than 100 producers in Janesville and Rock township.

Seeking New Members. Producers alleged that the Janesville Pure Milk company had cut the price from \$1.10 to \$1.00 a hundred weight instead of \$2.00 the marketing company price.

It was agreed that a drive be made to increase marketing company members, allowing new members to be received into the pool. Association, without paying the 50 per cent spread which caused the milk strike during May.

The producers insisted by striking (Continued on page 22.)

Will Wed Balloon Hero

When the youthful intrepid Lieut. Kloor returned from the Canadian wilds in safety with his two mates in the now historic navy balloon flight, it was announced that "the girl" to whom he had written his first account of his flight, Miss Dorothy Flowermont, and he were to wed. Then a few weeks ago Miss Flowermont's mamma said that "it was all off" because of the misbehavior of Kloor recently. Now Miss Irma Harrison of New York has told friends she and Kloor are to wed—small pay notwithstanding.

Miss Irma Harrison and Lieutenant Kloor.

TELLS OF BETTING TAX MEN OF TWO ON WORLD SERIES CITIES TO CONFER

Stakeholder Relates Wager on Cincinnati at Attell and Levi.

Chicago.—The first story of the actual placing of bets during the 1919 world's series by men charged with the alleged conspiracy for White Sox players to throw the games was told from the witness stand in the baseball trial Friday by John O. Seys, secretary of the Chicago National League Club.

Mr. Seys identified Louis Levi, of Kokomo, Ind., and Des Moines, Ia., as defendants in the case. He said he and Clark Griffith, manager of the Washington baseball team, laid stakes for bets made by Abe Attell and Levi at the hotel in the Sinton hotel in Cincinnati the night before the first game. Attell and Levi were taking turns making bets that Cincinnati would win the first game, giving odds of 5 to 5 and that Cincinnati would win the series, he said.

Hold \$2500 Bets. Seys said he held bets for Attell and Levi totaling \$2,500. When a man from Washington named A. T. Hendricks objected to Seys holding the bets, he was given to Clark Griffith to hold. Seys testified that he was to hold bets for Attell to \$500 by Hendricks that Cincinnati would win the first game. Hendricks won the first game.

Photographs of concealed travelers' checks put up by Hendricks were presented as evidence. An information that Attell may not have been caught by the gambler in the third game came when Seys testified Attell told him he was not betting on Cincinnati in the third game. He thought Fletcher Dick Korr would win for Chicago.

Bets Paid After Third. Bill Burns, the state's witness, had testified Attell told him he had lost a lot of money in the third game, thinking the players would throw it. Seys then testified to paying some of Attell's and Levi's bets in Chicago the day after the third game.

Seys also identified Den Levi, brother of Louis and also a defendant, as one of the men making bets.

Eight Drowned at Gulf Beach

FORCE IMPERATIVE TO MAKE GERMANY PAY, SAYS FRANCE

HOLDS BRITAIN TRUSTS FORMER FOE TO DANGER POINT.

CRISIS IS SEEN

Anglo-French Relations Worry Paris; Lloyd George Won't Budge.

Paris.—The Anglo-French controversy, which has arisen over the demand by France that allied reinforcements be sent to Upper Silesia, is still regarded by the French press in the light of a crisis.

While the British reply to Premier Briand's proposal that the supreme council meet July 25 to discuss the Silesia question has not been received, press dispatches from London to the effect that the Prime Minister Lloyd George refuses to alter his position against sending reinforcements are prominently displayed in the Paris newspapers.

It is understood Premier Briand, after meeting his ministers, will reiterate to President Millerand his position and insist on the necessity of sending additional troops.

In the Behn De Paris, "Berliner," its political writer, asserts that behind the divergent views of London and Paris appeared two distinctly different policies regarding Germany.

"England," he says, "insists that the given word of Germany and the series of friendly accords, expects the treaty of Versailles to be executed normally and looks for the Pacific development of her adversary of yesterday."

"France, however, does not expect the fulfillment of the treaty except by force. She will be content only when she knows that Germany cannot resist. France realizes that if Germany is not broken, Poland and the various Danube states, the horrors of the last century will begin again. France has promised to defend the states created by the treaty and she alone can prevent the British organization of Europe by the technicians of Berlin, Munich and Vienna."

Beloit and Janesville are going to meet at a conference table on Friday afternoon for discussion of the relation of the two cities. Mayor J. A. Janvrin, Assessor E. F. Livermore, Beloit, will meet in the court house with Frank L. Smith, Janesville assessor and E. A. Taylor, supervisor of assessments for Rock county. Mayor Thomas B. Welsh may also attend.

The issue is over the assessment of property in both cities, attempting to end a long standing and continued dispute before the tax authorities, of which city should be taxed the more. This question was carried before the board of equalization of the county board, when it was contended by Supervisor and Committee Chairman M. P. Richardson that the assessments of the cities should be equal.

Compare Assessments. Assessment is one of the big issues before the county at the present time. In Beloit and Janesville, the natural interest of the public officials is largely based on the assessments of the leading industrial plants. The Janesville assessor and the Beloit assessor are to compare the relative and tentative assessments this year not to escape any investigation, but rather to have the assessments figured on the general satisfaction of city and county officials from both districts.

Note Factory Figures. Public interest is on what the two cities will be assessed at this year. Both retroacted their production program. Last year it was argued before the county board that the assessment figure for the Janesville plant was too low, especially the valuation of the land, but the figures stood.

HOW'S YOUR CORN? SOME EXHIBIT EARS GROWN NEAR CITY

Rock county bids fair to have a bumper corn crop, the best in the state of Wisconsin, which should be used as a medium of advertising the county in both county and state fairs. The early planted corn is showing wonderful progress with ears developing out of the milk stage.

Ears of corn grown by Walter Bumgarner, route one, Janesville, on the I. V. Austin farm was brought to the Gazette office on Friday. The ears were perfectly formed, with full developed kernels in the milk stage. Never before was such a thick set at such an early date.

Rock county farmers should concentrate on making a representative exhibit of their prize corn and grain at the Janesville and county fairs and then cooperate for the sending of a crack exhibit at the state fair. The corn grown by Mr. Bumgarner was from an eight ear stand and will yield two tons to the acre and an excellent silage crop for the stalks in the best of the county's corn fields range from 10 to 12 feet in height with husks in.

Corn growers are urged to bring in prize corn ears, to show the worth of the county's crop.

ULSTER CONSIDERS PEACE PROPOSALS

Cabinet at Belfast Talks Over Terms Drawn Up by Lloyd George.

Belfast.—A copy of the Irish peace terms, handed by Premier Lloyd George to the British cabinet, was placed before and considered by the Ulster cabinet Friday. No opinion on the terms was requested by the British prime minister. It is stated, and none has been given.

DE VALERA RETURNS TO IRISH CAPITOL. London.—The center of interest in Irish affairs was transferred to Dublin on Friday when the late Dr. De Valera returned to his country for his cabinet for their seat of government. The Irish leader is taking with him a document received from the hands of the British prime minister, setting forth definite proposals by the British government as a settlement of the Irish problem.

These proposals will be submitted to the cabinet of the Daily Eireann, as well as other prominent Irish republicans, and Mr. Lloyd George will hear from time to time, how the discussions are proceeding. De Valera is expected to return to London for further conversations and Sir James Craig, Ulster premier, may re-enter the negotiations.

It is said the Ulster will continue indefinitely. London newspapers take an exceedingly cheerful view of the situation. Although the immediate future is uncertain, we have perfect confidence in the ultimate success of our cause," said De Valera to newspapermen at the station.

A few minutes later, he stood up in his carriage to address the large crowd of Irish enthusiasts who swarmed about the station. "I am perfectly certain our cause will win in the end. It may take some time to accomplish, but success certainly will come, of that I am confident," he said.

Cheering and singing, the crowd surrounded the train. As it was leaving, Dr. De Valera waved his hand and shouted, "God bless you, Sir, Ireland needs you," while De Valera acknowledged by smiling and waving his hand.

BLAMES "FEBRUARY" GOVERNMENT STAND. Belfast.—While most considered a typical Ulster blow of the Irish situation is given Friday by the Belfast News Letter.

STATE GEOLOGISTS EXPLORE OIL BOOM NEAR ORFORDVILLE

NO CHANCE TO FIND LIQUID ANY PLACE IN STATE, THEY SAY.

NO TESTS MADE

State Geological Survey Denies Story of Tests—Eight Leases Signed.

Doubt of any possibility of finding oil in Wisconsin was expressed at the office of the State Geological Survey, Madison, in an interview over the telephone Friday morning.

A prospector, Jack McWilliams, 612 Pleasant street, Janesville, a real estate agent, Wednesday signed eight leases with Orfordville farmers declaring that he had found oil prospects on the Janesville farm, a mile and a half west of Orfordville. According to Mr. Ennis, and others, the prospector stated that he had had samples of a brownish sand analyzed by the State Geological Survey and received a report that they contained a deposit of 18 to 20 per cent oil content.

Made No Tests. "We have combed this sand, nor made test of any from Orfordville," it was stated at the survey office. "A man drove up to our office in an automobile several weeks ago and showed us a sack of sand, but we made no test of it. He gave us his name, but since we merely talked about the matter no record was kept. He would not tell where he got the material."

Paige Gets Samples. Considerable excitement was found in Orfordville and on the surrounding farms Thursday when a prospector named Paige, who had been in the activities of women leaders in Washington for some time.

Harding Names Woman Police Judge at Capital. Washington.—President Harding has nominated Miss Mary O'Toole to be a judge of the Municipal Court of the District of Columbia. Miss O'Toole is a member of the bar and has been prominent in the activities of women leaders in Washington for some time.

Bonus Tax Deduction from Federal Income Tax Upheld by Judge C. Z. Luse. According to a decision rendered by Judge Claude Z. Luse in the Federal court of the western district and a judgment signed by him, there will be much litigation over the right of persons and corporations to deduct the amount paid under the soldier bonus tax from the federal income tax of 1918. The case was that of Schuster vs. Burr Williams, income tax collector for Wisconsin, and the court decided against the collector and the government. The right to make the deduction is upheld. Amount of the deduction in this case and in others pending will reach beyond a million dollars, it is estimated.

The judgment is a legal precedent on which the soldier bonus tax can be deducted from the federal income tax for 1918. The action was tried in the United States court, western district of Wisconsin.

It is considered probable the rules will be suspended so the ordinance can be rushed through to final passage next Monday night. This will give vendors just one week to apply to City Clerk E. J. Sartell for licenses.

May Refuse License. The council will have the power to say who shall be given licenses and who shall be denied them. The new state law making local licensing systems compulsory prohibits issuing of permits to persons convicted of an offense under the prohibition regulations.

Licenses will not be required of ordinary ice cream and soft drink establishments in the opinion of City Attorney Cunningham. "As I understand the law there are three classes specified," said Mr. Cunningham, Friday. "In the first class all drug stores—places which may legally sell liquor—containing more than one-half of one per cent alcohol. The second class pertains to places which sell what are called non-intoxicating drinks, that is, beverages of a vinous or aqueous nature, amount of alcohol not more than one-half of one per cent. The third class consists of establishments selling drinks containing no percentage of alcohol."

One Class Only. "The state law provides another method for issuing licenses. The first class is so that the new ordinance here would provide only for the issuing of licenses to the second class of establishments."

BABY "DANGEROUS FOREIGNER" SENT OUT OF GERMANY

Berlin.—Fearing that he might become a communist because he was born in Vienna, the police of Munich have refused to permit a chubby little baby boy, 10 weeks old, to enter Germany.

The little fellow was adopted by a childless couple, residents of Munich. Arriving at Munich with their new found treasure, the couple were told that the police regarded him as "a dangerous and burdensome foreigner, who in 20 years might become another Kurt Eisner."

BANKS PROTECTED AGAINST BANDITS

Several Employees Provided With Guns—Fear No Robberies Here.

Officials of Janesville banks have little fear that bandits will attempt to hold them up or burglarize the buildings, as they believe they are amply protected to meet any emergency.

Bankers interviewed Friday on the subject following the report of the \$10,000 robbery of an Appleton bank and the Wabeno robbery, were of the opinion that the bandits would greatly increase their lives if they should attempt such a thing here in the daytime and that it would be almost impossible at night.

The five banks have taken every precaution possible to protect the funds entrusted to them. The tellers of one bank have been practicing recently with a shotgun preparing for an attack.

Some of the precautions taken are a system of bells which sound an alarm, time locks on safes and alarm, special system of wires attached to bells and other parts of the safe which if touched sound an alarm. Guns rest in handy places during the day.

Lighting is kept burning at night and special watchmen are employed. The bankers seem to be of the opinion that robbers pick only the smaller banks as victims when possible. They know that a robbery, if successful, has been issued by the Wisconsin Bankers association to arm the employees and have shotguns at hand. All the banks have burglar insurance to cover any possible loss.

Bankers are in the practice of keeping a part of their funds which are not needed in a larger bank in Milwaukee or Chicago.

Should Not Be Hampered. In their opinion on the immunity of the state from the tax, they said: "The governor of Illinois has very many important duties to perform requiring his constant attention and his best ability. In the proper performance of these duties, it should be and it is the policy underlying the constitution that he shall not be hampered or threatened, or coerced into doing or failing to do what is for the best interests of the people who elected him."

Presence of several national guard officers in uniform in the state house was considered a significant statement of the government's confidence in the governor's council holds that he has it in his power to muster troops to protect him from arrest if such a move is considered necessary.

INVESTIGATE INCOME TAX PHASE OF CASE. Chicago.—Investigation is being conducted by the government of the income tax phase of the case against Governor Len Small, Lieutenant Governor Sterling and Vernon Curtis, Grant Park bankers, according to reports at the Federal building here.

SMALL MAY CALL STATE TROOPS TO PREVENT ARREST

HAS RIGHT TO SUMMON MILITIA, ASSERTS HIS COUNSEL.

'ABOVE JUDICIARY'

Court to Decide Action; Governor's Statement Claims Immunity.

Springfield, Ill.—Contending that Governor Small, as chief executive of Illinois, is immune from arrest on charges of embezzlement, conspiracy and confidence game to defraud the state, that charging in government would result from his arrest and that the governor has the power to call out the state troops to hold off the sheriff's deputies at the point of the bayonet, counsel for the governor Friday morning appeared in Judge E. S. Smith's court to have warrants for the governor withdrawn.

The constitutional rights of the governor, they claimed, are above any branch of the judiciary as long as he is head of the state government. Following advice of his counsel, Governor Small issued a statement in which he virtually declared he would resist any attempt to arrest him.

Crowds Gathered. Expectant crowds gathered in and about the old court house when arguments commenced, before Judge Smith.

Governor Small issued a statement from his office saying: "When Attorney General Brundage succeeded in securing from the Sangamon county grand jury his indictment against me, my counsel, however, knew that I am absolutely innocent, was to submit myself to the court and stand trial in the ordinary course of the administration of the common law. My counsel, however, knew that the duties should be and it is the policy underlying the constitution that it would be a violation of my oath of office so to do, and that such a course would necessarily result in embarrassment of the state government."

"Should Not Be Hampered." In their opinion on the immunity of the state from the tax, they said: "The governor of Illinois has very many important duties to perform requiring his constant attention and his best ability. In the proper performance of these duties, it should be and it is the policy underlying the constitution that he shall not be hampered or threatened, or coerced into doing or failing to do what is for the best interests of the people who elected him."

Presence of several national guard officers in uniform in the state house was considered a significant statement of the government's confidence in the governor's council holds that he has it in his power to muster troops to protect him from arrest if such a move is considered necessary.

Matteson Is Victor Over Golf Champ

Kenosha—State Champion R. P. "Dick" Cunningham, Kenosha, was defeated in the semi-finals of the state golf tournament at the Kenosha Country club Friday afternoon, by D. A. Matteson of Janesville, 2 up and 1 to play. At the 15th hole E. P. "Red" Attie of Milwaukee won on Gordon Guilbert of Racine.

Hardings May Camp in Ford-Edison Party. Washington.—President and Mrs. Harding are considering an invitation to join a camping party, composed of Harvey S. Preston, Henry Ford and Thomas A. Edison, over this week-end at some place not far from Washington.

THE WEATHER

FOR WISCONSIN.

Unsettled Friday afternoon, and possibly night with showers or rain; cooler in northwest portion Friday night.

COUNTY IS FREE OF RED PROPAGANDA

Little Trouble Experienced in This Section Compared to West

Thus far the members of the I. W. W.—the one big union—have never been interested in the farm district or cities of Rock county. Consequently Rock county never has had trouble with the "reds" or syndicates. The fact that the syndicates are known there was but one I. W. W. organizer in Janesville, and he was promptly arrested and deported by former Governor F. D. Cramer. Although the headquarters of the revolution in Chicago, they have never made an attempt to further their union in southern Wisconsin or northern Illinois.

Instead they swarmed to the wheat harvest fields, the iron ore mines of Michigan or Minnesota, the lumber camps where there is no security, and the great cotton in Aberdeen, S. D., is nothing new in the treatment of them. They were handled by the I. W. W. in the 1916 county election in St. Louis county, of which Duluth is the county seat, went into the north woods where there was an attempt to force a strike and a strike was made in the vicinity of Cusson, the logging camp of the Iron and Rainy Lake company, and the "reds" caught were brought to Virgie in the lumber camps. They were then chased out of the state by Deputy Sheriff Fred Witte.

It is the general practice for the I. W. W. to send out organizers, who are not only sent to cause enough trouble and dispute to keep others from working. Strikes are forced, and in the northern lumber camps the trouble is so serious that the I. W. W. agents drove the loggers out of the woods with armed axes and guns. They sunk railroad spikes in logs with intent to hurt mill workmen when the logs were placed on the big movable platforms and run through the band saws.

\$10,000 Fire Loss on Delavan Farm

Delavan.—Fire on the farm of Roy Meyer, caused a loss of approximately \$10,000 late Thursday, when two barns, one new, two silos and considerable equipment were destroyed. The origin of the fire is unknown. Threshing crews from surrounding farms prevented the flames from spreading. The loss is partly covered by insurance.

ANNOUNCES PROGRAM FOR CHICKEN SHOWS MONDAY AND TUESDAY

The program for the chicken culling demonstrations has been arranged by County Agent R. T. Glasco for Monday and Tuesday, July 25 and 26.

The demonstration program follows: For Monday, Mrs. Addie Butler, 10 a. m., Town of Plymouth, Fred Sorrow, 2 p. m., Town of Spring Valley, Frank Hulten, 4 p. m., Town of Beloit, Henry Huebner, 10 a. m., Town of Newark, Halley, 2 p. m., Town of Avon, Joseph Ross, 4 p. m.

Prof. W. E. Alpin of the Wisconsin college of agriculture will be the county agent in the demonstrations.

FIRE PREVENTION TO BE INCLUDED IN SCHOOL CURRICULUM

Madison.—School children of the state will be compelled to devote half hour each month to instruction in fire prevention. The new law, which is explained in the new safety laws which have gone into effect as a result of favorable action by the legislature.

Further important addition to the safety laws was the Burke bill which provides that no machinery may be used or installed in a state that does not comply with all requirements of the safety laws and the orders of the industrial commission. In 1919 there were 1549 accidental deaths in Wisconsin and only 139 of those were in industry, while nearly half were of school children. It is further explained that there were 73 deaths from fire in 1919 in Wisconsin, with a large percentage children.

MURDER SUSPECT "WELCOMED" BACK

Pittsburgh.—Joseph Thomas, for whom the Allegheny county authorities have been searching since last December in connection with the killing of Mrs. Anna Kirkner, was brought back to Pittsburgh from Baltimore Friday.

A large crowd had assembled at the Baltimore and Ohio railroad station when the train carrying the man in custody arrived. He was met by a large group of people who had been anxious to see him again. He assured them he would take good care of them.

Rail Administration Liable for Fire Damage

St. Paul.—The state supreme court Friday held that the United States Railroad administration is liable to damages resulting from a fire which started near the Great Northern tracks near Chicago in October, 1918, causing a loss of several hundred thousand dollars. In affirming the St. Louis county district court in the case of Philip Hall, the defendant railroad administration was responsible for damage of the property by fire. Hall is entitled to \$7,400 damages.

Friend's Child, 8, Shoots Milliner Accidentally

Juliet, Ill.—Mrs. Martha D. Stopp, 59, a milliner of Plainfield, near here, was accidentally shot and killed by Louise Hartog, a neighbor's 8-year-old daughter. The child took a revolver from a drawer. It was discharged and Mrs. Stopp fell dead with a bullet in her brain.

House Passes Tariff Act, 287 to 127; Seven Republicans Vote "Nay"

(By Associated Press)

Washington.—The Republican protective tariff bill, estimated by Chairman Fordney to raise around \$500,000,000 in revenue annually, was passed Thursday night by the House, 287 to 127—precisely the vote by which a Democratic provision for elimination of tariff on American valuation was defeated.

Seven Republicans voted against the measure, while the same number of Democrats supported it. Oil, hides, cotton and asphalt survived a bitter fight and remained on the free list. The Longworth embargo, first of five contested schedules to go before the House, was thrown out, 200 to 103.

Exempted List Wins Easily. There was not much action in imposing duties on hides and cotton. The House in committee of the whole had defeated amendments carrying compensatory rates on their manufactured products. When the oil amendment was reached there was such a shout of noes that a roll call was not deemed. A moment later Chairman Fordney announced sentimentally in the committee of the whole that the oil amendment had been so overwhelming it wasn't worth while to go through the form of calling the roll.

More than 200 committee amendments were rushed through during the last few days, were put up to be voted on in a block. Some merely

corrected spelling in the bill, some changed commas and some changed the rates, but the Democrats still holding their forces inline compelled a record vote.

Democracy's Loss. Just before time came to pass the bill, Representative Garner, Texas, ranking Democrat on the ways and means committee, introduced a motion to send the bill back to the framers with instructions to strike out the American valuation and reciprocal provisions. This was where the Republicans and Democrats divided squarely on the whole, although they had split widely on some of the earlier votes.

Fordney Given Demonstration. It probably was the first time since war-time days that a House found itself with such a quorum on the eve of a vote. Closing the long wrangle, Chairman Fordney brought Republican members to their feet by asserting it would bring greater prosperity to the country. Thrilled by the demonstration, he smiled and bowed and then wheeled about to wave to the galleries.

Republicans voting against the bill were: Back, Wisconsin; Gain, Ohio; Knight, Ohio; Lampert, Wisconsin; John M. Nelson, Wisconsin; Shalick, North Dakota; and Voight, Wisconsin.

Democrats voting for it were: Campbell, Pennsylvania; Dupre, Maine; Fawcett, Louisiana; Lusk, Alaska; and Baker, California. Representative Socialist, New York, voted against.

Pet Corn Assaulted; Lone Meadow at Daybreak; Bang! Doctor; Honor Is Satisfied

Budapest.—The passion for duelling which slumbered in Hungary during the war, is breaking out again with increased violence, according to a report of the ministry of home affairs recently made public. About 6,000 challenges to fight were recorded during the last six months and in 250 cases the result was three or four killings. Trifling incidents have been the cause of some encounters. Street car accidents have been followed by a challenge to a "fool" might impel two solemn looking gentlemen in full dress and top hat to call on you on behalf of the offense person requesting you to name your seconds.

As a rule the conference leads to explanations, apologies and a protocol embodying these important facts to the satisfaction of all parties concerned. But when the insult is considered too gross or the offender too stubborn, the second rule that only blood can wash the insult away, and the challenge is accepted. The challenge is accepted with light or heavy swords, with bandages or without, or with pistols. The combat takes place in one of the fenced schools or in a field outside the town. Political antagonists frequently change arguments for weapons after heated debates in parliament. Several duels followed by a couple of duels. But ministers have to accept the challenge of an opposition member, and it is still remembered that the minister Stephen Pista was prime minister fought nine duels with his political opponents.

Farmers Watch Congress With Hope That Laws May End Agricultural Slump

National legislation is being closely watched by Southern Wisconsin farmers, as agriculture measures now occupy an important place on the agenda of laws before congress. Rock county farmers testifying recently in the Farm Bureau hearing, expressed doubts if the present farm slump could be ended by laws but they are willing to be convinced.

The dollar of the farmer is considerably less than that of the merchant and manufacturer. The farmer's market prices are compared with those of finished and semi-finished goods. Other issues in which the Southern Wisconsin farmer is interested is the increase in the consumption of milk and obtaining of better prices through cooperative effort. Coal has been shipped in for the Rock county Farm Bureau through local dealers at a "dual" price of from \$1 to \$1.50 a ton. Correct Prices Act.

The Walsh bill introduced into the United States senate is intended to correct and remedy a number of injustices to the farmers of the United States both in the interpretation and administration of the Farm Loan act. This bill would authorize the organization of a national association of National Farm Loan associations, for their mutual benefit and provide that dues to maintain such an association may be collected from the individual farmer members or taken from the dues of the associations not to exceed \$25 annually. The justice complained of consists in: 1. Prohibiting a voluntary association among National Farm Loan associations; prohibiting such associations from selecting their own officers; and the preservation of their right as conferred by the Farm Loan act.

Depriving such associations of the right of any representation in the management of the federal land banks through such associations and have paid for more than two-thirds of the capital stock of such banks. The Federal Farm Loan board acting under a ruling of Attorney General Palmer given last December holds that the National Farm Loan associations have no right to form a national union or to use \$10 of the funds of each association to defray the expenses of such a union. The Farm Loan board also forbids and holds that any association joining such a union shall not be recognized by the federal land bank of their district and a new National Farm Loan association shall be formed in their territory.

War was declared on the cooperative marketing movement in general and on the U. S. Grain Growers, Inc. in particular. The organized grain exchanges and other business organizations, dealing in agricultural products, at a meeting at Cincinnati June 27-28, A "war chest" of \$250,000 was filed by representatives of grain associations for the cooperative marketing plan.

The interest of the Wisconsin farmer does not rest primarily in the grain markets but this movement is still

44 MORE READY TO ENTER ROTARDALE

Second Group of Janesville Boys Goes into Camp Saturday—40 to Return.

Rotardale camp at Landerdale lake, registered by the Janesville Rotary club, where 40 boys enjoyed an outing of 10 days, will be invaded Saturday morning by 44 more Janesville boys for a similar period.

Rev. R. C. Peterson, Baptist minister, has been secured to have charge of the Sunday morning service at the camp at 11. Members of the Roman Catholic church will go to Elkhorn church. There will be no service in camp, Sunday, July 24, the boys going to a nearby town for morning services.

Leave Here at 1:30.

Ten members of the Rotary club will be ready with their cars at 1:30 p. m. Saturday to take the second group of boys to camp and on their return will bring the boys who have been there for ten days.

Boys should report at the Chamber of Commerce promptly at 1:30 as it is expected that each boy will be checked and examined by a physician. Each camper should bring two heavy blankets, a tin plate, and two spoons. All other camp equipment is provided. A change of clothes, bathing suit, towel, soap that will float and other personal effects should be brought in a suitcase. No trucks or boxes should be taken.

Members of the Rotary club and wives expect to have a basket picnic at the camp next Thursday afternoon.

List of New Campers.

The following boys will compose the second and last period of Rotardale camp this year: Harold Albrecht, Edward W. Fisher, George Higgins, Willis Hubbard, Burton Hubbard, Walter Schwieger, Duane Mohr, Harold Graves, Lawrence Ellis, Junior Munnigh, Edward Gibson, Roy Dietz, Edward Fuchs, John Whitten, Eddie Moore, Sylvester Rahr, Walter Snooker, Floyd Stone, Everett Meadows, Gerald E. Norren, Norman B. Harry, Volin, Walter Nichol, John Watson, Jr., Arthur Hanrahan, Marvin Teubert, Adrian Lindas, Richard Munk, David Took, Richard Bell, Harry Bell, Kenneth Cunningham, Henry Thuermer, Francis Bremen, Robert Bremen, Gordon Pegelow, Howard Anderson, Romany Bergs, Fred Haggen, and Frank Merstadt.

STATE GEOLOGISTS EXPLORE OIL FIND

(Continued from page 1.)

Gazette reporter made inquiries. E. N. Paige, industrial engineer from Chicago who is conducting a survey here for the Chamber of Commerce, obtained samples of the sand which is a ledge at the end of the main highway from which it was pointed out by Francis Ennis, son of the farmer on whose land the deposit was found. The geologist obtained his samples. He will test them Friday.

Approximately 600 acres have been leased by the oil man, according to W. T. Green, farmer. They were made, he said, with J. P. Ennis, J. R. Taylor, K. Logan, E. Olds, J. Johnson, Revon, Brothers, Irving Berkness and W. T. Green.

The right to explore for oil for a year without paying any rental on the agreement that if a shaft is sunk within the year the renter will pay \$250 annually for each acre leased. In the event that oil is struck, according to Ennis and Green, those farmers who signed the lease will be paid \$100,000. If oil is found, all pipes would be sunk below plow depth so as not to interfere with the usual farming operations.

Mr. Ennis stated that McWilliams had been around his farm off and on for the past three months getting samples. Upon making the leases, he announced that he was going away to make arrangements to bring a drilling apparatus to the farm to start sinking a 40-inch shaft within the next two weeks, and would go down 2,500 feet.

—IN—

Howard E. Miller, dairy fieldman employed by the Jefferson county Farm Bureau, is completing a survey of the consumption of dairy products in the county. It has been pointed out to the Wisconsin Dairy Council that the farmers were buying their own business by using butter substitutes and the farm bureau is investigating to see if this was the case. So far the results seem to confirm the statement and the Jefferson County Farm Bureau expects to put on a campaign to show the true value and increase the consumption of dairy products.

Several county farm bureaus have already conducted such advertising and educational campaigns to teach the real need for and food value of dairy products in the human diet.

Threshing Prices

Several of the county farm bureaus of Wisconsin have been taking up the question as to what will be a fair price to pay for the threshing of grain this fall. Since the price of labor, machinery, and repairs has not decreased to any great extent during the past year, the threshermen feel that they are justified in charging about the same as last year which prices are supposed to cover the cost of operation, and of depreciation, plus a profit on the business. On the other hand the farmer feels that at the present price of grain, which is from one-third to one-half of former prices, he cannot afford to pay these prices for threshing.

The threshermen of Rock county meeting at Janesville recently arranged the following schedule of prices which they propose to charge and considered reasonable under existing conditions: oats and barley 45c, rye and wheat 7c. They hold that since the grain crop will be light as a result of the dry weather these prices may not even prove profitable.

SHELL SPONSOR NEW DREADNAUGHT U. S. WASHINGTON

Miss Harriet Jean Summers.

Miss Harriet Jean Summers, daughter of Representative and Mrs. John W. Summers of Walla, Wash., has been appointed by Governor Louis F. Hart as sponsor for the dreadnaught, Washington. The ship will be launched at Camden, N. J., early in the fall.

They would like to see oil found in their lands, both Ennis and Green are skeptical. Green stated that he had been on one of his trips, which he always made by motor car, returned after an absence of a few hours and exhibited a quart of gasoline which he declared had been extracted from the samples he had taken. Green laughed as he told the story in the presence of Mr. Paige, and Lucian C. Holman, manager of the Janesville Chamber of Commerce.

Frontier Restrictions Halt Fire Brigade

Vicenna.—Frontier restrictions were called to an extreme when they prevented an Austrian fire brigade from crossing the Italian border to fight a fire. Some buildings on the Italian side of the Brenner Pass railway station caught fire and the Austrian town's firemen turned out. Italian border guards demanded their visas and having none they were forced to watch the warehouses burn.

SUBDIVISION GETS MODERN FACILITIES

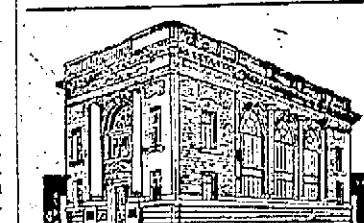

Electricity and Water Supply Are Guaranteed for Maplewood.

With the addition of water and electric light systems, which will be in operation in about two weeks, Maplewood, subdivision, one mile south of South Janesville, will have practically all the modern improvements of a city, according to Hugh Gallaneau of Cady-Gallaneau company, owners.

A new water system which comprises the latest inventions is being installed. It is automatically worked so that, when the 200 gallon tank runs to a certain level, compressed air is automatically pumped in causing the tank to fill.

The Janesville Electric company is now erecting an extension line to Maplewood, which will give the residents there all the modern facilities in cooking, power, and other electrical needs.

The division comprises 75 acres of land, and contains at present six residences, Mr. Gallaneau said. More will be erected in the fall of the year if conditions warrant. "The people of Janesville are too pessimistic," declared Mr. Gallaneau, "Michigan people are quick to note such advantages, for they have been

RELIABLE

THE SOCIAL CHRONICLE

SOCIAL EVENTS

Return From Geneva.—Miss Wright, Miss Jane Wright, Pittsburgh, Pa., have returned from Lake Geneva, where they attended a house party for several days.

Will Have Social.—Cars will be provided for all those who wish to go to the Epworth League lawn social on the lawn of the Harold Peterson home, near Hanover, Friday night. They will leave the church between 6:30 and 7:30 p. m.

Marriage Announcements Received.—An announcement of the marriage of Miss William Boynton, Chicago, and Miss Josephine Treat, Chicago, Ill., has been received. The bride is the daughter of Mr. and Mrs. Charles B. Boynton, a former resident. They will be at home after Oct. 15 at Oak Park.

Luncheon For Miss Wright.—Mrs. Paul Owen, East street, south, gave a luncheon Thursday complimentary to Miss Jane Wright, who is visiting Peggy Smith, Milwaukee avenue. Places were laid for 12. The centerpiece was a large arrangement of mixed flowers. At bridge in the afternoon, the prizes were taken by Mrs. Charles Brellinger, Atlantic City, and Mrs. Ralph Gray, Milwaukee. A social gift was presented to the guest of honor.

To Attend House-Party.—Mr. and Mrs. John Dowd, South Main street, left for Lake Geneva, where they will attend a house-party there for two weeks after which they will take a furnished cottage for another two weeks.

Mrs. Schnell Entertains.—Mrs. Albert Schnell, 1110 Milton avenue, entertained a few women at bridge Tuesday afternoon. Cards were played at two tables. Mrs. William Scott, taking the prize. Refreshments were served.

Has Party at Cottage.—Mrs. Joe Weber, North Washington street, entertained a party of young people at her cottage up the river Thursday. The party was given complimentary to her niece, Miss Catherine Hogan, Boone, Ia., who is her guest. Sixteen attended.

Surprise Mrs. Lagerman.—Mrs. Anna Lagerman, Hollywood, Cal., who is a guest of Mrs. Peter Lisson, Highland avenue, was surprised Thursday. Twenty-one women attended, several from this city. Dinner and supper were served on the lawn.

Return From House-Party.—Miss Caroline Richardson, St. Lawrence avenue, is home from a visit at a house party at Lake Geneva, where she visited at Cedar Point and Toledo, O.

Will Play at Beloit.—The men's basketball team will be entertained at a 1 o'clock luncheon Monday at the Beloit Country club. Bridge will be played in the afternoon.

Mrs. Muller Entertains.—Mrs. S. P. Muller, 608 North street, invited the members of a card club to be her guests Thursday afternoon. Entertainment was given by Mrs. Muller. Entertainment was given by Mrs. Muller. Entertainment was given by Mrs. Muller.

Many Women Play Bridge.—The Thursday afternoon bridge game was played at the Country club house Thursday. Mrs. Harriet Kaveling had charge for the day. The game was played by a large number of women. The game was played by a large number of women.

Will Visit in Chicago.—Miss Jane Wright, Pittsburgh, Pa., who has been a guest at the St. Smith home, Milwaukee avenue, and Miss Peggy Smith, left for Chicago Friday morning. They will visit at the home of a Nassau college friend for several days after which Miss Wright will return to Pittsburgh.

Has Birthday Party.—Master Frederick Sutherland, son of Dr. Sutherland, 231 North Washington street, celebrated his ninth birthday Thursday. He invited seven of his boy friends for an all-day picnic at Aberlyrie. The party was given by Mrs. Sutherland. The party was given by Mrs. Sutherland.

Motor to Ephraim.—Mr. and Mrs. Frank Jackman, Sinclair street, and Mr. and Mrs. Fred Shelden, Milwaukee avenue, left Friday for Ephraim on an automobile trip. They will spend several days touring in the northern part of the state.

Has Party Friday.—Stowe Loveloy, son of Mr. and Mrs. H. S. Loveloy, Jackman street, 48 entertaining a number of his boy friends at a party on the lawn Friday afternoon. A supper will be served.

PERSONALS

Mrs. P. E. Kelly and daughters, Margaret and Loretta, and Elmer Wedgast motored to Lake Geneva Wednesday and visited Claude McNitt.

The following party motored to Lake Geneva Wednesday and spent the day: Joseph Hoffmann, Milwaukee avenue, and Mrs. Hoffmann, Margaret Brierty, Chicago, and Mary Hayes, Milton.

Miss Verne E. Ranch, 403 Western avenue, spent Friday at Milwaukee, spending a few days with Mrs. A. C. Kent, La Vista Platts, and other relatives in the city.

Mrs. and Mrs. Sim Dorn and son, Henry, have returned home from a few days visit in Milwaukee and West Bend.

The Misses Anna and Kathryn Barstow, 111 Chestnut street, have left for a week's outing at the Dells of the Wisconsin.

Mr. and Mrs. L. W. Johnson, 25 South Main street, announced the death of an 8-pound girl, born Friday morning at Mercy hospital. She will be called Kathleen Ann.

Miss Helena C. Johnston, Gouverneur, N. Y., is visiting her sister, Mrs. J. H. Johnston, Fifth avenue.

Capt. and Mrs. L. I. Goecker, Ft. Riley, Kas., who have been visiting relatives here for some time, will

GERMAN BUSINESS URGING CUNO AS U. S. AMBASSADOR

Herr Cuno.

Herr Cuno of the Hamburg-American line is the candidate of German business interests for the post of ambassador to the United States. But the German government wants to send a man who would cause America to realize that Germany has greatly changed since the revolution. For this reason the wishes of German business may be ignored for the present, and a man of a different type, sent to Washington.

Plans for the community pavement dance Tuesday evening in front of the city hall are proceeding rapidly under auspices of the Civic League.

Refreshments are to be offered for sale and a grab bag in charge of Mrs. Charles Tallman. Mrs. George Buchholz and Mrs. Gustafson will be a feature.

Groups of high school girls chaperoned by Mrs. Paul Owen and Miss Evelyn Kaveling will sell ice cream cones and the Social Arts club, with Mrs. J. R. Nichols as chaperone, will sell home made candy. Popcorn and peanuts will be on sale at booths, as well as pop of assorted flavors and groups of high school girls will be in charge of the ice cream and other ladies of the various Parent-Teacher organizations will serve in the booths or in other capacities. The wives of the band men will serve as ticket takers at the dance.

The whole affair is intended for a business community event where parents can take their children and young people their sweethearts and enjoy a frolic in the outdoors.

VOICE OF THE PEOPLE
Editor Gazette:
Can you print to settle a discussion the population of Janesville, Wis. The population of Janesville for the 1920 census was given as 18,293.

WALWORTH TEACHERS FOR YEAR NAMED
Walworth.—Russell M. Kutz, Janesville, will receive \$2,300 as principal of the Walworth high school during the coming year. Other teachers and their salaries are: Hannah Marsh, Waupun, \$1,350; Bernice Engleke, Fall River, \$1,200; Evelyn Raible, Fontana, \$1,200; Lucille McDonough, Eau Claire, \$1,175; Esther Rossman, Evansville, \$1,100; Lottie Davis, Walworth, \$1,100; and Alice Voss, Elkhorn, \$1,100. The school board has been authorized to employ a school nurse.

BADGER SCHOOLS ON HONOR ROLL
Washington.—Thirty-four educational institutions in the United States have been named by the war department as "the distinguished colleges and honor military schools," respectively, in the year 1921.

The recognition gives each college and university the right to an appointment, virtually without examination, to the regular army each year, while each of the honor schools is permitted to maintain one representative candidate at West Point.

The colleges and universities named include Wisconsin universities, Northwestern Military and Naval academy, Wisconsin, and Shattuck school, Minnesota.

ELKHORN FAIR TO BE SEPT. 6 TO 9

Stock Exhibition Will be Big Feature. Big List of Premiums.

FRUIT IS POPULAR AS PRICES DECLINE

Season at Its Height With Home Grown Varieties Being Received.

A great variety of fruits and vegetables is now shown on the local market, with currants selling for 35 cents per quart and pears, at 50 cents per dozen, the new arrivals. Prices on many of the commodities have dropped, while few have advanced.

The fruit market is probably at its height now with the great variety of home grown and shipped in fruits. Plums are excellent, selling for 25 cents a dozen and in some places 2 dozen for 35 cents for both the blue and the yellow variety. California cherries seem to have disappeared from the market after a lengthy stay. Peaches remain at the same price, 25 cents per basket but continue to get better. Cantaloupes, almost the most popular fruit in the market during their season, sell for 15 cents and 2 for 25. Honeydew melons, similar to them but sweeter and larger, have come down in price, now selling for 45 cents each.

Bananas Drop 2 Cents. Blackberries have reached the end of their season and the last shipment will be sold next week. They sell for 12 cents per quart basket. Bananas have taken a drop of two cents after remaining at the same price since winter and now sell for 12 and 14 cents per pound.

Watermelons, another popular fruit, will sell for 50 and 60 cents each, a little lower than the last shipment, when the new shipment comes in Friday or Saturday. Apples have dropped in price and now sell in some places for 7 1/2 cents per pound, while they are higher in others, reaching 10 and 12 cents for certain varieties. Prices on oranges remain almost stationary, 40, 45, and 60 cents per dozen, while home grown seem to have stopped soaring and remain at the high price set last week, from 60 to 75 and

TREES ALONG THE STATE HIGHWAYS

State Highway Commissioner Says They Make Snow Drifts What Others Say

In the effort to stimulate the planting of memorial trees along the highways of the Wisconsin and other states the Chicago Tribune has sent to the state an investigator who is sounding out opinion. The Gazette, in an advocate of the planting of trees along the highways as a means of added beauty and attraction as well as to make the highways more correct climatic changes and preserve the lands against eventual barrenness, is pleased to welcome this co-operation of the Tribune. The following report of the conditions and opinion in Wisconsin has been made by the Tribune investigator.

For Memory Roads
Wisconsin road and farm experts are not afraid of roadside tree planting. In fact they say that the farmer never objects to the planting of trees along the roads. The roads are made by the state and the farmer is not to be blamed for the roads. The roads are made by the state and the farmer is not to be blamed for the roads.

AT MEMPHIS HOSPITAL
Admission to the Memphis hospital of Mrs. Mable Rostein, Mrs. L. Johnson, Janesville.

SEES ELECTRIFIED ROADS FROM COAST-TO-TOAST
Milwaukee. — Railroads in the United States will be electrified from coast to coast within the next generation, predicts William R. Burpee, newly elected president of the National Electric Light association.

AWFUL! AUSTRALIA 100 YARDS WRONG ON MAP OF WORLD
Sydney. — Australia's exact position on world maps, originally determined by Captain James Cook, explorer, was brought into question recently when wireless messages from the United States, received at Lyons, France, said they believed there is an error of perhaps 100 yards on all maps in Australia's north-bound position.

GREEKS CELEBRATE CAPTURE OF CITY

Important Rail Point in Asia Minor Taken: Turks Admit Retreat.

Athens. — The capture of Eski-Shehr, the important railway junction in Asia Minor by the Greek army, was celebrated enthusiastically in Athens Thursday.

A great crowd, after holding a demonstration at the home of Premier Vassilous, marched through the streets celebrating King Constantine and the Greek nation.

Turks Admit Retreat. Constantinople. — Mustafa Kemal Pasha, the Turkish nationalist leader, in a manifesto to his followers, declared the nationalist army is retreating to positions prepared in advance, according to advice received here.

Mustafa Kemal urged the people of Anatolia to have no fear, assuring the nationalist army will perform its duties faithfully.

Report Retreat Cut. Smyrna. — An important encircling movement by the Greek right wing is reported here to have cut the retreat of the Turkish nationalists toward Ankara from Eski-Shehr, the railway junction point, captured by the Greeks, in their sweeping victory of Tuesday evening.

The nationalist leader, Kemal Pasha, is said to have escaped the encircling movement and to be fleeing towards Ankara.

MEN INTERESTING BUT TIRESOME, IS FEMININE VERDICT.
Polkston. — Every woman knows that men, though interesting creatures, are tiresome hard to understand and more so when they are in the grip of a passion, according to Mrs. A. L. Fisher, wife of the president of the British national board of education.

She told an audience of the Royal Society yesterday that most men become ill entirely through faults of their own and "sowed seeds of trouble for themselves by doing so much, because keeping late hours, or living in hygienically sealed rooms."

TAFT WILL SPEAK AT ANNUAL BAR DINNER
Cincinnati. — William H. Taft, former president and now chief justice of the supreme court of the United States, will be toastmaster at the annual dinner of the American Bar association, meeting here in his home town Aug. 20 to Sept. 2.

Senators who are present at this occasion will be Sir John Simon of London, former British secretary of state for home affairs; John W. Davis, ex-ambassador to Great Britain; and Charles S. McNary, ex-Senator from Ohio.

Urge Paper Mills To Utilize Southern-Pine
Madison. — Establishment of paper mills in the southern states is all that is needed to utilize much of the surplus pine in the manufacture of book paper, the Forest Products Laboratory here announces.

Its experiments are said to have determined that pulp was made from one variety of pine is suitable for this purpose. Southern pine has often been suggested as a possible supply of material for pulp purposes, but experiments with it have failed until the local laboratory, working with laboratory pine, successfully turned out book paper by the sulphate process.

WHERE THE BUCKWHEAT COMES FROM
Where do we get the buckwheat cakes? Pennsylvania, unless a more certain source of buckwheat than any other state and there has been a great falling off in the last ten years in buckwheat acreage. That's why you hear people from Northern Pennsylvania called "Buckwheaters" there was 243,000 acres in 1919 against 217,000 in New York state. The next highest is Michigan with 41,000 acres while Wisconsin with 26,000 acres among the five first.

HOPES TO SEE SON, "BOSS ANIMAL MAN" IN BARNES' CIRCUS

Hoping to see his son for the first time in more than three years, James R. Gardner, 565 North Washington street, may make a trip to Oshkosh next Tuesday, the date set for the appearance there of Al. G. Barnes' circus and wild animal show.

His son, Frank Gardner, is in charge of the animals and is one of the best known men in the outfit. Among the circus hounds he is known as "Cherry" Gardner.

Mr. Gardner left Janesville about 16 years ago for Daraboo from where he started on a tour with Ringling brothers circus. He was with several other outfits later finally going over to the Barnes shows as "boss animal man."

He has not visited his home here in nine years. It is possible his father will postpone the trip to see him until the circus comes closer to Janesville.

Real Harbor Planned at Great Lakes Station
Great Lakes. — Thousands of middle western and western boys who trained for naval service here during the war without ever seeing a naval vessel may come back next year and find training ships and submarine chaser ridges at another under the high bluffs of Lake Michigan.

Work began this month on a \$500,000 harbor which congress recently authorized. When completed next summer, the basin will provide for six or seven ships, drawing 20 feet, to 160 ft at anchor.

A breakwater is being built to enclose an area approximately 400 ft long and a quarter mile wide, with an entrance to the southeast. The enclosed harbor, besides affording an anchorage on this unprotected shore for training ships and chasers, will be used as a "take-off" basin for seaplanes of the aviation mechanics school and for small boat drill.

WOMEN ON WISCONSIN FARMS
In Wisconsin there are 6,500 women operating farms and of this number, 5,570 are owners and 107 are tenants. They own or operate 573,180 acres.

DETOURS SHORTER ON STATE ROADS

Completion of Construction in Places Opens Highways; 100 Still Closed.

Milwaukee.—Construction work at Cedarburg is now open and there has been a general shortening up of detours all along the line, the tourist department of The Milwaukee Journal reports in its weekly highway review.

Highway 15 is still bad between Milwaukee and Fond du Lac and inadvisable for through traffic. The concrete road between Milwaukee and Waukesha, which goes out Greenfield Avenue, is open for traffic. The road is open as far as Pewaukee on 12. Nineteen with the detours is still being used for through traffic to Madison although it is in fairly good condition, there being but one detour on 12 just west of Cambridge. Detour on 100 between Edgerton and Janesville.

Highway 17 up to Sturgeon Bay has four detours.

Highway 57 has five detours between Milwaukee and Green Bay, it is also under construction south of the city.

There is a detour on 54 between Green Bay and Algoma, also one on 18 out of Appleton to Waupaca.

Detours on 13 out of Wisconsin Rapids, also up through Marshfield and Abbotsford.

Highway 29 is under construction between Rio and Portage, as is 20 between Racine and Janesville, 20 through Cordell, Union Grove, Kaukauna, Dover to Burlington.

Detour on 50 west of Bristol. Highway 10 has a detour between Beaver Dam and Waupun, it is under construction, also 118 between Janesville and Beaver Dam.

Highway 62 between Milwaukee and Mukwonago and between Mukwonago and East Troy is under construction.

Officials of both the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul railways, here were busy Friday morning denying rumors of a "terrible accident" near Janesville. The report was heard as it came by Milwaukee. All passenger and freight trains were running on time.

Beloit Italian Near Death in Auto Accident

Joe Picetti, Beloit Italian, is near death at Emergency hospital there as a result of an accident on River side Drive Thursday night, according to advices received Friday by Dist. Atty. S. G. Dunwiddie. Picetti, riding a bicycle, was struck by an automobile driven by John McArthur, La Prairie, and was dragged considerable distance.

Following reports that Picetti cannot recover, County Coroner Lynn A. Whaley went to Beloit Friday afternoon to investigate preparatory to holding an inquest in case the Italian man does not recover. Judge John H. Clark, Beloit, is said to have refused to issue a warrant for McArthur at the present time.

It is declared by some that the accident was unavoidable although the Beloit Italian colony is wrought up over the matter. It was reported that McArthur was traveling at 25 to 35 miles per hour when he struck Picetti. The accident occurred at the intersection of Belois avenue.

Officer Denies Bergdoll Charges

Washington.—Flat denial of the charge that he accepted five thousand dollars to aid Grover C. Bergdoll, draft evader to escape was made Friday by Major Bruce R. Campbell of the army, before a house investigation committee.

The charge was made before the committee this week by Mrs. Emma C. Bergdoll, Philadelphia, mother of the fugitive. Asked about a deposit of \$4,500 with a New York brokerage firm, about the time Mrs. Bergdoll swore she saved him the money, Major Campbell said he had been paid cash sum from the sale of real estate.

SEEK FLAG. Anyone knowing the whereabouts of the flag recently donated to Company "M" is asked to communicate with the president of the Company "M" club, B. J. Santoli, city clerk.

When engine No. 3507 on the Chicago, Milwaukee & St. Paul railway blew a cylinder head near Avalon Wednesday night, the evening train from Chicago was slightly delayed. No one was injured.

A. F. L. CONSIDERS NEW LABOR PARTY

State Convention Seeks Means of Representing Organized Workers.

Manitowoc.—Trades union members in Wisconsin will consider during the coming year the organization of a labor party to represent the organized workers in legislative offices.

If a majority of the workers desire such a party a conference will be called by the state executive board of the Wisconsin State Federation of Labor, at which steps will be taken to launch the proposed party and movement.

This is the recommendation adopted by the state federation convention here Friday and contained in the report of the committee to which was referred the annual report of Henry Ohl, Jr., general organizer.

The report also urged the executive board to continue the policy of co-operating with farmers and other groups of workers in the election of officials pledged to support labor.

"Political parties have worked for labor, but inadequately," said Mr. Ohl, who asserted anything done for the workers will have to be initiated by the workers themselves.

"The socialist party undoubtedly will become a Fabian society and, in linguistic political action so far as getting men to follow," said J. J. Handley, for 20 years a member of that party and secretary-treasurer of the state federation, who favored the formation of third party.

Because of low attendance, the regular meeting of the local Brotherhood of Railroad Trainmen was not held Thursday night.

Chief Issues Traffic Warning

Obedience to the state auto law holding down the speed limit within the past two months and that a general stirring up of the atmosphere is necessary before the heat waves are actually broken for any length of time.

During the months of June and July there has been a notable absence of storms all over the world and especially in this country; the federal officials report.

Heat in the summer is due to the greater length of the days, thus permitting its accumulation, the weather experts say. During heat waves the air falls into a "sink" and continues to get hotter until storms break up the stagnant condition.

PRESS WORKER IS CUT ABOUT HEAD
Gus Schmidt, employed by the Janesville printing company in the press room, suffered several deep gashes on his forehead Friday morning when he was hit by a part of a paper ball machine. He was taken to the office of Dr. Wayne A. Dunn, where several stitches were taken. He was then removed to his home. He expects to return to work Saturday.

Another Heat Wave Enroute?

Ninety degree temperature returned to greet Janesville again Friday after a lapse of four delightful cool days in which the thermometer went as low as 58 degrees at 2 a. m. Thursday. The rise of the mercury was extremely rapid Friday, going up 18 points in six hours.

Little breeze was experienced, although low clouds obscured the sun at brief periods after noon.

With reports that the temperature at Billings, Mont., was 110 degrees Thursday, predictions are that another heat wave is spooling eastward. Weather bureau officials at Washington announce that the usual movement of cold air from the polar regions to displace hot air has not been taking place within

Rush Work on Myers Theater

Remodeling of the Myers theatre is progressing rapidly according to the new issues, C. G. Boutin. The interior is being gone over by Frank L. Shadel of Milton Junction, who decorated the interior of the First National Bank of this city and many other buildings in Wisconsin. New carpets, graperies, lights are being added to bring out new color scheme. Remodeling of the stage and dressing rooms is being rushed to be in readiness by the opening day, later day.

The management signed a contract with the Famous Players Lasky Corporation, for Paramount pictures to be run in the theatre.

By mail outside first zone, \$7.50 per year.
MEMBER OF THE ASSOCIATED PRESS.
The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or not otherwise credited in this paper and also local news published herein.
The Gazette prints freely of events when they are news. The editor and items are chargeable at the rate of 5 cents a count line, average 5 words to the line. Obituaries: Cards of Thanks: Notices of any kind where a charge is made to the public.

THE GAZETTE'S PLATFORM
Build a Community Center and Convention Hall for the city; for athletics, conventions, and other public use. This is also a part of a program to provide music and entertainment for the people the year around. Complete the city hall. Make more small parks and playgrounds and provide at least one large park where the whole people may recreate at will.
Cause for auto tourists coming to Janesville or passing through.
Direct a permanent memorial for the soldiers of the World War, suitable and adequate, and preserve the relics and souvenirs of that and all other American wars in a public building.
Complete the paving of Janesville streets and complete the sewer system.
Make all main highways into city or concrete to connect with good pavements in Janesville.
Keep the city looking bright and clean with paint and the streets free from filth.
Hire a new hotel or hotels to increase the facilities for the public and be able to handle conventions.
Finish the high school at an early date and give the children proper educational facilities.

If you are going away on a vacation arrange to have the Gazette follow you. Notify the Circulation department.

WILL KNOW WISCONSIN.
Thousands of people will know the beauties and wonders of Wisconsin this year who never knew them before. The state is receiving the "once over" from a great army of people who have come by automobile to take advantage of the excellent roads, through lanes of scenic beauty, view the array of farms, and see the things of which the state is so justly proud. From the pleasant fields, the winding highways, the scores of lakes, and the evidences of prosperity of Southern Wisconsin, to the more wild and rugged scenery of the central and northern part of the state, the tourist can have a varied menu of the most satisfying visual food. It will be worth a great deal to Wisconsin—these good words that will be spoken for the state by the men and women and boys and girls who have made our broad acres and fascinating wilds, their vacation ground.

Down in Texas they say it with air.

TARIFF BILL PASSES THE HOUSE.

By an overwhelming vote the tariff bill has passed the House and now goes to the senate. Oil, hides and several other articles have been taken from the schedules and put on the free list. In the matter of dye protection, the House has refused to establish a three year embargo against the importation of dyes. That too, was a violation of the protective principle. An absolute embargo would have placed the American manufacturer and user of chemicals at the mercy of the American dye interests.
In this connection Congressman James Fear has written on the Gazette in explanation of his attitude on the dye question. He states that he has opposed the embargo and for the reason that he would not be a party to the building up of a monopoly by erecting a wall around America and placing textile and other manufacturers who are large users of dyes at the mercy of the interests that controlled the dye business. The House supported him that far in his contention, by refusing to accept the tariff bill with the embargo clause. The dye industry should be encouraged and fostered and with the protection still in the bill there is sufficient difference to give an advantage to the American dye manufacturer in competition with the German interests heretofore in complete control.
This tariff measure will raise \$500,000,000 of revenue and give that much relief to the people from taxes assessed in other directions. With it out of the way the greater question of equitable taxation may be taken up and settled before the session adjourns. The senate has a long road to travel on the tariff before it is finally enacted into a law.

One reason that things that used to be shocking no longer shock is that the public refuses to be shocked.

THE ULSTER OBSTRUCTION.

While the reason for the present failure of the Irish peace settlement is not entirely clear, owing to secrecy surrounding the negotiations, yet enough is known to show that the obstructive tactics of the Ulsterists representation has acted as a bar to a full realization of the plans of Lloyd George and acquiesced in largely by De Valera. In this peace conference it must be admitted that the president of the Irish Republican party has shown himself to be a greater statesman than the narrow and obstinate representatives of Ulster. Sifted down to its finality, Ulster has refused to enter into any agreement that would remove the independence of Ulster. In other words Ulster wants to be a larger, independent than even the south of Ireland had hoped to obtain through negotiated methods. The age-old differences of religion have stood as a bar and it may be said that the Sinn Fein did not enter this as an objection against Ulster. It was left to Ulster to make the issue on these lines. One of the things the world does not want to see happen again is a return to the guerrilla warfare, and the reprisals of the last two years.

Idleness and lack of employment brings misery, then comes discontent and then the I. W. W.

It was to be expected that the Bergdoll's some day would tell the story of the corruption that made it possible for the draft deserter, Grover Cleveland Bergdoll, to get away from his prison on Governor's Island. Now that Mrs. Bergdoll has started to tell the story, we may get all the details of the conspiracy that has blackened the reputation of the army. Officers and men of the army should be pleased to think that the dis-

IMPROVING THE MOVIES
By FREDERICK J. HASKIN
Washington, D. C.—Whether the movies are improving from an artistic viewpoint is a matter bitterly debated, but that they are improving in the mechanical way and that still greater improvement in that line lies in their immediate future, seems to be indisputable.
If the screen drama ever gets away from its musing-twin plots, its sloppy endings, its cumbrous throw-aways if it ever emerges from its infancy of tears and horseplay and melodrama, it will have a fine mechanical foundation. This fact is impressed on you when you talk to some of the engineers who have studied the motion picture from the mechanical point of view. They see a great future for the movies, both as a means of amusement and of education.
Chief among these is Henry D. Hubbard, assistant director of the Bureau of Standards, who reveals a few of the achievements not only possible but probable. He shows a piano instructor by the aid of moving pictures of a master's hands accurately copying the keyboard; dancing, taught by movies shown from under a glass floor, that the pupil may literally follow each step of an expert—a multitude of novel usages to which the films have not yet been put.
It is fascinating to follow Hubbard as he talks of an individual projector by which one may observe any film at his desk and smaller pictures, so to speak, using the same film and smaller pictures, slip one may use it as he uses a book or pencil, slipping it into his pocket and carrying it much as we carry the camera of the present day.

Coming picture theater management and operation will be largely automatic, this scientist believes. The format of the theater must receive radical treatment. The theater of the future, he believes, will be a place of one-way aisles, and the application of every device of traffic management to insure easy entrance and exit will undoubtedly follow. Seats will be designed by correct posture experts, for perfect comfort and health, with two independent arms for each person. The seats, of course, will not exit automatically as soon as vacationers allow exit. Coin-operated vending machines will dispense drinks according to seat location, eliminating both the box office and the ticket-takers. A tiny lamp would light showing for each row what seats were available, the color indicating the number vacant, thus largely replacing the usher.

The theater size will range from the "little theaters" to the huge theaters with lower magnifications will be the best for highly specialized films requiring perfect definition. Little theaters will also be suitable for innovation, films that must meet the challenge of popular taste before being assimilated into appreciated art. At the other extreme vast circular theaters may be erected, having concentric circles of seats facing the center where each seat will be provided with its own screen and projector, all operating with one film. Many automatic results could be served and all the advantages of large-scale production would obtain.
Motion picture engineers hope soon to control every item such as cooling or heating, drying the air, increasing the air pressure or depressing it, adding the healthful touch of ozone, ensuring air purity by filtering or by laboratory methods, and to give the viewer of pictures such as the odor of the pine woods, the tang of the sea, the fragrance of the flowers, or the spicy odors of Arabia.
All of these elements are today separately realized in actual service and need but the uniting hand of the engineer to bring them into combination. This would make the theater most attractive at all times since the most famous resorts of the world. What this complete control and ideal atmosphere within the theater will mean for public health and comfort and enjoyment can hardly be over-estimated. The incidental possibility is here opened to create a new art, namely, to use all such controllable conditions within the theater to add to the climatic suggestions appropriate to the action of the play, exactly as appropriate incidental sounds and music are now added.

Scientists anticipate a phenomenal rise in the art of incidental sounds, including music, the human voice and those characteristic noises like the clatter of hoofs, clug of motor, patter of rain, sighing of the wind, crackling of the fire, and the splash and roar of the sea. Such sounds, if perfectly rendered, add intensity to the realism of the film, but their production must be made automatic and independent of the direct use of a hundred separate noise makers.
Humbard foresees perfect and automatic rendering of the human voice to every observer of the picture. Speaking parts will be added to the silent drama, and there will be provided telephone by which auditors with detectors on each ear, hear clearly the speaker's words and noises incidental to the story, may be produced in the acoustic laboratory of the theater adjoining the projection room, and be delivered automatically in synchronism by direct connection with the film movement. Each auditor will receive, if he so desires, the music, speech and sounds by perfected telephone tubes to the ears of the auditor, to quality and intensity so that he for the storage ear the sounds are true to nature and subject to volume regulation by each patron. As such mechanism is perfected, it will be less and less in evidence, just as the lamps are concealed in modern lighting and the projector is relegated to a room outside the auditorium. Eventually only the effects will be perceived.

Immediate inauguration of a complete program for making available to all human beings perfect motion pictures of all skilled motions is also the hope of the engineers. This would mean a new era in education, for the self-education thus made possible might solve the inadequacy of schools and teaching staffs.
With a true vision of the importance to the world of this achievement the engineers would accomplish this in twenty years, Hubbard believes. Commercial pictures would then be the supreme habit models being developed, summing up the experience of the world, so that no new skill is lost and children might begin at the highest point of skill yet attained.
graceful story is to be cleared up, blame fixed and punishment follow.

When the sultan of Zanzibar went visiting the other day he took his fifty wives along. He did not have to pay the high passenger rates of America or he would have left 49 of them at home.

This man Burns is the hottest thing the Chicago witness stand has seen in some time. He has warmed up the gamblers who crooked the White Sox games.

Paris Temps says the League of Nations is dead. Paris papers are notorious for not printing fresh news.

Fond du Lac has a wonderful tourist camp where 50 and 60 automobile parties stop each night. But that is in Fond du Lac.

That cloud of dust is made by 100,000 tourists now in the state.

The best bill collector would be a flea since he has one bill and six legs.

With cooler weather the fish liars from the north will again get busy.

Japan wants to be guaranteed on the disarmament conference before she begins.

JUST FOLKS
By EDGAR A. GUEST
THE THING ACCOMPLISHED.
If you had known the depth of satisfaction Or come to feel a sense of proper pride, You must be wretched of your every action. And till the task be done not turn aside.
Though humble be your duty and your station, Fill it with credit, not with sham or bluff; Give it your best and spurn the explanation. That poor endeavor may be good enough.
Seek not in words of praise from men who flatter. For true contentment—it is never there. Be your own judge and let the thoughtless chatter. You know your work and is it false or fair.
Remember this and be no vain pretor: In little things man meets his sternest test; Be not content with work that you could do better. The humblest task's deserving of your best.
You need not fear the future: Men shall find No matter where you toil or where you dwell. If every time you leave a task behind you, You know yourself that you have done it well.

ON THE SPUR OF THE MOMENT
By ROY K. MOULTON
THIS TIME OF YEAR
Have you felt, along about this time of year, any symptoms of the most peculiar field day of the world several years ago when he wrote: It seems to me I'd like to go Where bells don't ring, nor whistles blow, Nor clocks don't strike, nor bells don't sound, And I have nothing to do with the town, Nor any silliness, but just the trees Low whispering, or the hum of bees. Or brooks faint babbling over stones, In strangely soft and contented tones. Or maybe a cricket or katydid, Or the song of birds in hedgerows hid. Or just such sweet sounds as these Sometimes it seems to me I must just quit the city's din and dust, And get out where the sky is blue; And say, how does it seem to you?

Dear Roy—Sign on a grocery store in Holyoke, Mass. "Butcher, the Crocker." Incidentally, Mr. Butcher's brother is the superintendent of the Newsboys' Lodging House in Manhattan.
Also sign on a printing establishment in Brooklyn: "Kick, the Printer."
WHY SODA CLEERS GO MAD.
Temperature 102. Crowd six deep around soda fountain.
Sweet-Faced Mother—Two sodas, kindly.
Eccentric Dispenser—What kind, madam?
S. F. M.—Ice cream sodas.
H. W.—WHAT FLAVOR, MADAM? WHAT FLAVOR?
S. F. M. (to daughter)—What kind do you want, Mary?
Dispenser loses all control and giggles hysterically, while the ladies seek manager to lodge a complaint.
The meanest white man in the world lives in Kansas City, where he has a story told by this way. He says he never works, but spends all his time going to dances. The other night he took her only pair of silk stockings and put them down into a dance. Well, perhaps long stockings are uncomfortable when a man is dancing. Who knows?

Who's Who Today
JANE ADDAMS.
Another honor has been added to the many which have been heaped upon Jane Addams, famous Chicago settlement worker, during the past few years. At the recent convocation of the International Council of Women in Vienna she was unanimously chosen president of the organization for the coming year.
It has been thirty-two years since Miss Addams took the step that has since made her internationally famous and founded Hull House, in Chicago. Since that time she has been busy with herself and with the world, and to give features in many parts of the world. Among her publications are: Democracy and Social Ethics; The Spirit of Youth and the City Streets; Twenty Years at Hull House; A New Era; and The Long Road to Woman's Memory.
Miss Addams was born of well-to-do parents in Illinois thirty-one years ago. She was educated at Rockford college, Rockford, Ill.

State Press Comment
Most families are interested in becoming home owners. And it is right that they should be. Home owning makes for contentment and better citizenship—Fond du Lac Commonwealth.
If anyone has any criticism to offer on our streets they ought to be sentenced to ride over some that they have in Stevens Point. We drove through there yesterday and it is the worst we struck this summer—Antigo Journal.
The hot spell caused many babies to go into training for grand opera—Superior Telegram.
Secretary Hoover generally says something when he talks, and the people generally sit up and take notice of what he says—Antigo Journal.

LOOKING BACKWARD
FORTY YEARS AGO
July 22, 1881—There are no new cases of scarlet fever reported and the old ones seem to be getting along well. A heavy fall of rain was experienced last night, during a great deal of the day. The dedication of the new band house in the upper court house park, built over the water reservoir, will take place next Tuesday.

THIRTY YEARS AGO
July 22, 1891—D. W. Watt of this city and Ray Reynolds, Rockford, are making plans for starting a circus. It will show at only the smaller towns and will be only a few days' ride from here. The first annual meeting of the stockholders of the Hanson Furniture company met last night and it was shown that the business is progressing very well.

TWENTY YEARS AGO
July 22, 1901—Damage to the crops in the county because of the terrible drought that is being experienced, will reach between 50 and 60 per cent. The temperature was 80 and 60 degrees in the night. Heat conditions are bad all over the country. Bids for the construction of the public library building will be received today and will be opened tonight by the members of the board.

TEN YEARS AGO
July 22, 1911—Fire in the Burns Building Mills, North River street, resulted in a loss of \$2,500 yesterday. None were burned or injured. Three drunks were up in court today.

Personal Health Service
By WILLIAM BRADY, M. D.
Noted Physician and Author
THE ORDEALS OF A VACATION
Pollen ivy has three separate leaves on one stem, whereas a common harmless shrub often confused with it, called Virginia creeper, has five leaves on one stem. Pollen ivy has smooth whitish fruits resembling mistletoe berries, sometimes, less than a single seed. Remember that the pollen ivy has three separate leaves on the stem, and not a three pointed leaf. The leaves are usually pointed or notched, often more so on one side.
The itching or burning of the skin begins at any time from a few hours to two or five days after exposure to the plant. Were it not for the great weakness of bathing this irritation would probably be confined to the face and hands or other exposed parts of the body; but the careless vacationist takes some kind of bath and spreads the inflammation over the rest of the body; or he spreads the pollen ivy on his hands, or on his face, or on his neck. The inflammation may amount to nothing more than a redness and swelling, though generally the skin becomes blistered.
Best first aid for one known to have been exposed is very many rinsings with soapy water, freshly prepared for each rinsing. Or immediate bathing in cold water, leaving the skin for a few hours. If you know you are going to be exposed, smear the face and hands, with either or with vasoline is an excellent protection.
An excellent dressing for ivy pollen consists of large compresses of muslin or gauze kept constantly wet with soapy water, or with a solution of one-half of one percent of boric acid. These alkalis tend to neutralize the acid irritant of pollen ivy. If blisters appear they should be carefully opened by puncture with a needle borne with a lancet or soaked needle through a spot of skin touched with tincture of iodine, and the fluid carefully pressed out and absorbed with cotton or a clean towel. Do not scratch. When further contact with the skin. When the inflammation is no longer increasing, the inflamed area may be dressed with plain zinc oxide ointment.
The best remedy for relieving the itching and burning in the earlier stage of ivy poisoning is:
Powdered calamine..... 2 grams
Zinc oxide..... 3 grams

ASK US
(Any reader can get the answer to any question by writing The Gazette Information Bureau, Frederick J. Haskin, Director, 202-204 E. Milwaukee St., Janesville, Wis., and enclosing a stamped, self-addressed envelope in which to return the answer.)
Q. I am a German who took off that papers before this country went to war. When can I complete naturalization?
A. The naturalization bureau says that it is now possible for Germans to complete their naturalization.
Q. What is meant by the law of protective coloration in animals?
A. The law of protective coloration in animals relates to the law of nature which gives animals and birds the colors which enable them to hide themselves from their enemies. For instance, some birds are colored about the same as the trunk of a tree.
Q. How does the disease known as anthrax get its inappropriate name?
A. The word has the same derivation as angle, the Latin singular, meaning a belt or girdle. This disease often manifests itself in a series of small blisters around the neck of small children, and a hummingbird which cannot be opened. A. H. S.
Q. The bill of the hummingbird does not open, but the lower mandible does. How does the tongue of the hummingbird work?
A. The tongue of the hummingbird is a double tube.
Q. How high a wind has been observed in the United States?
A. The weather bureau states that a wind velocity of 138 miles an hour has been recorded at Camp Lookout, N. C.
Q. What is the greatest natural waterfall in the world?
A. Niagara falls is the greatest in the world for volume of water. Victoria falls have a greater drop.
Q. Please tell me whether La Paz or Sucre is the capital of Bolivia?
A. The capital of Bolivia insofar as the seat of government is concerned is La Paz. Sucre is the legal capital of the country. The business of government is carried on at La Paz because this city is much more accessible.
Q. Where was Jasmine first known?
A. Jasmine is a native of Persia and was brought to England about 1550 A. D. The yellow variety came from England in 1656.
Q. Where is the New York City house to be located and what will it cost?
A. This circular building with a diameter of 500 feet, will be erected at North Street, near the City Center. The estimated cost of building is \$10,000,000, cost of site, \$6,000,000.
Q. How did vaudeville get its name?
A. This word has in some way grown from Vaux de Vire, the name of two valleys in France. A native of Vire composed some satirical songs which became popular throughout France, under the name of Vaux de Vire. The name was used for other collections of songs and became corrupted with vaux de ville, and finally to vaudeville.
Q. Are the Indians actually decreasing in numbers?
A. While the 1920 census shows an actual decrease in the number of Indians, this is explained by the fact that the census takers counted as whites persons having only a slight trace of Indian blood, while in 1910 these were classified as Indians. The census has shown very little change in numbers in the past half century.
Q. What is the name of the city in which a man climbed up a tree to see Jesus?
A. Jesus, through which Christ passed and in which Zachariah, a publican or tax gatherer, climbed up a tree in order to see him was Jericho. This is related in Luke's Gospel, 19th chapter, verses 1-19.
Q. What meaning is attached to the name of the French town Caracassonne?
A. Caracassonne is used to express a place to which everyone has a particular desire to go. It is a kind of generic term, as it were. The actual town has lured many visitors, since it ranks as "one of the most remarkable ruins of the Middle Ages, existing."

HOROSCOPE
The stars incline but do not compel.
FRIDAY, JULY 22, 1921
This is not a fortunate day, according to astrology. Venus and the Sun are both absent.
It is a day to avoid any departure from beaten paths and is a day in which to devote special attention to routine business.
Venus focuses on all the activities of women making for dissatisfaction with leaders of clubs or other organizations.
It is an especially forbidding time for those who seek support or aid from women.
The planetary government is believed to encourage independence and self-sufficiency among girls in a way that results unfavorably.
Theaters will find this rule of the stars unhelpful, since the favor of the public will be difficult to obtain.
During the absence of the stars women should take account of their own possibilities and refrain from seeking employment or asking for positions.
The stars declare that the next 10 weeks will not be lucky for women who desire personal recognition, but that it should be favorable to organization for future work.
Many changes in the president's cabinet during his administration are prognosticated, but at the same time there is little hope that a woman will attain a place in it.
The stars are read as strongly indicating that women must work together if they would achieve progress and it is foretold that nationwide movements, such as the reform of the railroads are to improve greatly next month, the stars announce.
Persons whose birthdays are in the August of a leap year, business affairs will proceed as usual.
Children born on this day will probably be quick and intelligent. These subjects of Cancer are usually very versatile, prudent and industrious.

Jap Bankers to Aid Chinese Rail Project
Tokio—In accordance with an understanding made with the Japanese government, the Japanese bank syndicate has decided, says the Keiojin Shinbun, to accept a proposal made by the representatives of the Chinese Eastern railway for a loan to finance the railway.
The amount is 20 million yen. The greater part of the initial advance will be used to pay wages of the railway employees, the remainder to purchase rolling stock from Japan.
A condition of the loan agreement is that freight rates between Changchun and Harbin be lowered to facilitate freight transportation with the South Manchurian railway, owned by the Japanese, adds the Keiojin.

Abe Martin
We've met folks that was dyspeptic, wealthy and sour, but we've never known anybody that was wealthy and wise that had any health. Any hour, battle suits are less 'n one-half of what they was before the war.

8% CASH DIVIDENDS 8%
\$2 by mail every 3 months on each \$100 Share of the
Milwaukee Electric Railway and Light Company's 8% Cumulative Preferred Stock
Here is your chance to get a regular and dependable 8% income in a permanent, growing business, Wisconsin's largest, strongest public utility company.
ISSUE: \$3,000,000, authorized by the Railroad Commission of Wisconsin.
PRICE: Par, \$100 a share. Company reserves the right to redeem this stock at \$103 a share when cheaper capital justifies it.

SECURITY: Each \$100 share is backed by an equity of more than \$350 in State-appraised, State-regulated, income-producing public service property, kept always in good condition.
DIVIDENDS: The Company has a 20-year record of regular dividend payments, without a break. Your 8% dividends, payable quarterly, begin accruing the day you buy the shares.
ADDRESS: Securities Department, Public Service Building, Milwaukee, Wisconsin.

Keeping the House in Order
IT is in caring for the needs of its patrons, be they big or little, which stamps the Standard Oil Company (Indiana) as a service organization of the first order.
Whether the product be a major one, as for instance, gasoline, or one of the highly refined motor oils, or a secondary one, such as Standard Road Oil, facilities have been provided by which the patron, wherever he may live, may get what he wants with as little delay as possible, and at a minimum of expense.
For many years Standard Road Oil has been used by communities and individuals in providing a semi-hard surface to highways. Roads so treated are dustless, are not so easily affected by rains, and carry a heavier load with less power than is possible where plain dirt roads, however well cared for, are used.
Recently it has been apparent that many want to use this dust preventive on the roads about their homes. Some need but a single barrel; others two or three, but these small amounts they want badly.
As soon as it became apparent that there was a demand for Standard Road Oil in small quantities, the Company assigned to this product a sufficient number of iron barrels to care for the trade. These barrels are not sold but are used merely to transport the oil, to be returned as soon as they can be emptied.
By thus cooperating with its patrons, the Company can furnish small quantities of Standard Road Oil at a minimum price, and the user can get it in quantities of one barrel, or a thousand barrels, without having to pay for the container.
This is but one of the many ways in which the highly specialized organization of the Standard Oil Company (Indiana) serves the public, individually and collectively, to the profit of all.

LOOK TO CHURCH FOR WORLD PEACE

Purpose of Great War to End Wars, Blake Tells Lutheran League.

Madison—The challenge to the church is to see that the world for universal peace, Governor Blake told delegates to the joint convention of the Young People's Lutheran League and the Choral Union Thursday night through a letter to Launceston Gordon, president of the Lutheran organization.

"As our boys went to war to the step of military music, from every county seat was proclaimed that one of the great purposes of the war was to make an end to all war, and that they were going to make their sacrifices in the cause of universal peace and brotherhood. The church cannot betray the like promises from the pulpit and in every temple," the governor said.

"We, therefore, must look to this convention and like conventions for determined leadership in making the teachings of the lowly Nazarene things in fact as well as in words."

"When you consider that for the fiscal year of our government ending in 1920, the total cost of the war was \$25,000,000,000 with only one percent for public welfare, including all of the contributions to education, public health and labor activities, only three percent for rivers, roads and parks; while on the other hand 93 percent was spent for present armaments and past wars, a condition more important challenge to the church."

Business sessions were held by the delegates Friday morning, with short speeches by the speakers. The convention will continue through Saturday.

HOT WAVE "DONT"
NIGHT OFF THE GRIDDLE
Don't forget that mother's milk is the best milk for babies.
Don't let the baby cry.
Don't let the baby sleep alone.
Don't fail to give the baby a bath daily and several spongeings in addition.
Don't allow flies, mosquitoes or bugs to bite the baby.
Don't give the baby medicine except on the advice of a physician.
If the baby is sick, send for your doctor, and if you can't afford that, take the baby to the nearest dispensary or welfare station.
Don't wear heavy clothing yourself.
Make water your beverage.
Don't overwork, overheat or overdrink.
Don't allow flies or other insects in the house around your food.
Keep the baby's food in the icebox, and get water from the icebox.
Don't doctor yourself, if ill, consult a physician.

People Getting More Honest, Say Hotel Officials

People are getting more honest. Not that the sick-art artist has changed or there are no safe-crackers and hold-up men, but the hotel men in Janesville are convinced the average person, who at least has honest intentions and inclinations, does not commit petty thievery as much as he did five years ago in the hotels.

The behavior of the public in public places is improving, except at the dance hall. If anything they forget and leave more than they take away at hotels.

Even the most of what they take away is caused through carelessness and not criminal intent. An average of a key is lost each year, but most hotels put on a tag whereby they can be mailed back, which produces the desired results.

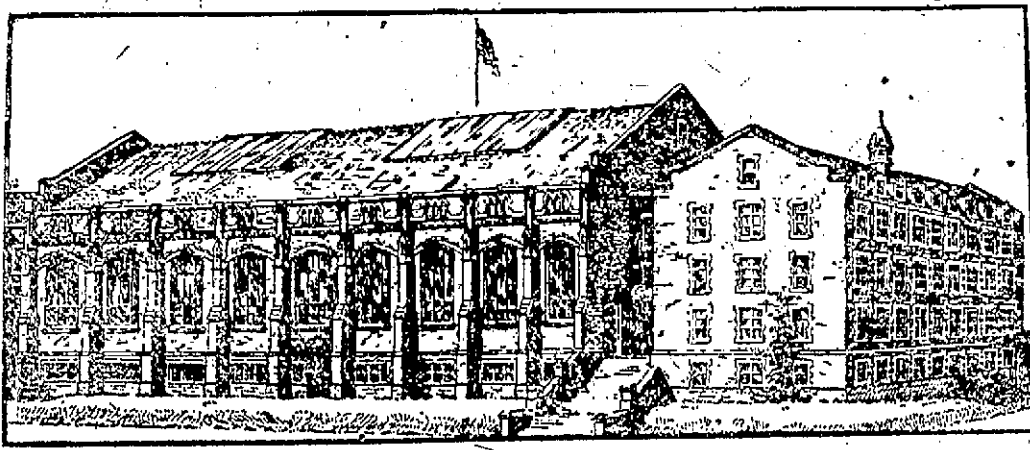

Hotel guests are leaving along the soap, bedding, trays and other equipment considered necessary to a hotel bedroom. They still steal a few, but the clerks and managers here all declare that the amount has materially decreased.

"It is a funny thing but some travelers have a craze or fad to collect stuff from hotels," said one Janesville clerk. "When they take a long trip they will have a collection of soap or towels or even stationery from every hotel they visited. Most hotels in the cities and on regular tourist routes have some souvenirs in the room to satisfy this fad."

Still the hotel keeper has his troubles with the guest who uses towels to shine shoes, cut a towel cleaning rags, or forgets to put them back. A careful check on equipment is now demanded in all good hotels, and when there is proof a guest took towels or equipment that fact is noted down in the hotel records and likely to be placed on the bill if the thiefy guest returns.

Shelbyman. Through efforts of Mayor Nathan Schulzke, Thomas McNeil of the Shelbyman Chair Company and the Kiwanis club, the south side will have one of the finest bathing beaches in Wisconsin. The Shelbyman Chair Company and Mayor Schulzke acquired a strip of beach along the lake, more than a block long. This was turned over to city.

Marquette to Have New Gym

The gymnasium, the first structure in the new group of buildings which will be completed for Marquette university of Milwaukee within the next year or two, is nearing completion.

According to the athletic director, the gymnasium will be the last work among structures of its kind. It will be possible to play two games of basketball simultaneously on the gymnasium floor. A ring of seats will be arranged around the edge of the gymnasium above the main floor to enable 5,000 persons to witness contests. In the same room, directly above the spectators' seats, will be a saucer-like ring for indoor track work. With this arrangement permanent seats can be installed for spectators.

FAMOUS OLD BOOKS STILL IN DEMAND AT LOCAL STORES

People still buy "Uncle Tom's Cabin" and books published years ago, which became famous, widely known and read, with the plot generally universally known. Search among the shelves of books at the Janesville book stores indicates that the fiction read before and after the civil war is still in demand and is always kept in stock.

There is "Robinson Crusoe," "Arabian Nights" and others of the similar type, which sell well even now.

There is a vast difference between selecting books to sell and selecting books to read from the public libraries, say the dealers.

War books are only new and their sale of so-called classics, bound in staid covers, as compared to the hard and flimsily covered modern fiction.

War books are now passé. They were the rage during the period of demobilization, but there were so many books published that the public sickened of war histories and accounts.

Fiction popularity comes and goes. Like garment styles, book sellers declare that there will be a limited number of books, which outlast the works of all other authors combined. "The Sutherland story," "Main Street" was one of the biggest sellers in years, as the book came out during the holiday season, which is the sales period for books.

Books for Youth
The care the favorite authors whose books always sell, and the works of others which struggle for recognition, to be a flash and then to die out in favor of the better known writers.

Don't youths there is a wide variety of adventure books. The Boy Scout series are the most popular. Then come collections of stories.

And yes—the new bride must have the cook book, which always sells.

AT WASHINGTON
Washington.—Representative Harry E. Hawes, democrat, is entitled to retain his seat as a member of the house from the eleventh Missouri district in house elections committee ruled, throwing out a contest filed by Bernard J. Bocky, republican, opponent.

Washington.—The republican "protectionist" bill, estimated by Chairman Borden to raise a fund \$500,000 annually, was passed by the house by a vote of 239 to 127.

Washington.—Reduction in federal reserve discount rates were indicated on action of the reserve banks of New York, Boston, Philadelphia and San Francisco, in bringing their rates down from 5 to 4 1/2 per cent.

Washington.—Renewed confidence that Japanese will consent to a broad conference was evidenced in official circles after an informal expression of views between the American and Japanese governments.

Washington.—The administration's refunding bill was held up by a call on secretary Mellon for more definite information regarding past commitments of the government.

Washington.—Sales of government surplus property were ordered stopped by Director Haves of the budget bureau, pending creation of co-ordinated machinery to control sales.

Remove All Restrictions on Meat, Sugar, Spaghetti
Rome. — Meatless days, bread and sugar restrictions and sugar embargoes, which until now have been in force since the beginning of the war, have finally been abolished. Food cards are now no longer needed to procure the bare necessities of life and gradually such luxuries as pastry, cakes, ice cream and other delicacies are being sold in their pre-war quality and amount.

Battle to Keep Nation Dry Seen by Leaguers

Gossard Plant Slowly Getting Back to Normal

The business outlook is good and conditions are gradually getting back to normal, in the opinion of J. F. Bennett, manager of the Janesville plant of the Gossard company.

Gradual additions to the force are being made as business improves and at the present time 100 are employed, which is two-thirds of the force employed a year ago, according to Mr. Bennett.

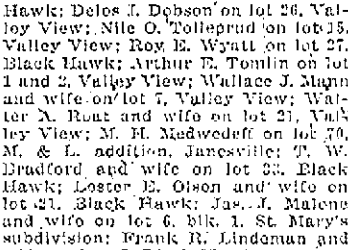

Asked as to when things would be back to normal, Mr. Bennett stated that he is not making any guesses. "We think things would be back to normal last March, but we are not making guesses and more, but are increasing our force as business picks up," he said.

Wholesale prices of the Gossard line of cheap goods have been slashed from 40 to 50 per cent this year from 1920 prices. The higher priced goods have not been cut owing to the fact that higher priced material used in their manufacture has not been reduced, Mr. Bennett said.

G. M. C. RELEASES 22 FROM OPTIONS TO PURCHASE HOUSES

Releases of optional agreements have been made by the General Motors corporation to a number of residents in papers filed in the register of deeds office in the court house.

The papers filed were as follows: Dana J. Edwards and wife on lot 22, Black Hawk addition; S. J. Brockenshire on lot 2, Black Hawk; T. T. Fredericksen and wife on lot 1, Black Hawk; Frank E. McFarley and wife on lot 13, Black Hawk; Wm. Kuhmer and wife on lot 3, Valley View; D. L. Rowhouse and wife on lot 21, Black Hawk; V. P. Lewis and wife on lot 15, Valley View; Russell V. Foraker and wife on lot 22, Black Hawk; Clayton Decker and wife on lot 2, Valley View; Wayne H. Bocky and wife on lot 2, Black Hawk; Earl A. Potter and wife on lot 24, Black Hawk; Delos J. Deason on lot 26, Valley View; M. O. Tollebrand on lot 25, Valley View; Roy E. Wyman on lot 27, Black Hawk; Arthur T. Tomlin on lot 1 and 2, Valley View; Wallace J. Munn and wife on lot 1, Valley View; Walter A. Runt and wife on lot 21, Valley View; M. H. Macdonald on lot 20, M. & L. addition, Janesville; W. W. Bradford and wife on lot 23, Black Hawk; Lester E. Olson and wife on lot 21, Black Hawk; Jas. J. Malone and wife on lot 6, Black Hawk; St. Mary's subdivision; Frank H. Lindeman and wife on lot 15, Black Hawk.

ROCK FARM LANDS DOUBLE IN PRICE

Figures Show Big Change in County Values in Last 10 Years.

Rock county farm property has practically doubled in value in the last 10 years.

This fact is brought out by the assessment figures and sales recorded at the county house. The big boom on farm land during 1915, it is pointed out, was not investment but rather speculation. While farm values jumped during the industrial boom, they have not receded to any great degree. While it is admitted general farming conditions are adverse, the values of good farm land in the fertile Rock county district still are high and on a sound basis.

The total assessment of farm lands 10 years ago was approximately \$60,000 and the last figures of F. A. Taylor, supervisor of assessments, are exactly double, or \$120,000.

Around 25 years ago people protested and blamed the Rock county board for paying \$100 an acre for the land which now is the Rock county farm. The 400 acres cost the county \$40,000. That land is now worth more than \$800 an acre.

The price of \$100 an acre was considered high and farms sold from \$80 to \$200 an acre. It is claimed to be more and in Rock county now that will not sell for \$150 an acre. The good land of the county, which constitutes the vast majority of the farms, is assessed at around \$140 an acre, but it is difficult to buy land for that price. Where there are good buildings, the price ranges from \$200 to \$250 an acre, and even \$300.

MOTOR VICTIM DEATHS DECREASE
St. Louis.—Deaths resulting from motor vehicle accidents here have decreased, according to Coroner Edward Richter, in the first six months of this year there have been 16 fewer fatalities than during the corresponding period in 1920, he said.

Decline in the number of inexperienced drivers was ascribed for the decrease.

Charles M. Talbot, president of the National Safety Council, said the decrease was noted despite an increase of 16,000 machines on St. Louis streets.

English capitalists who, the league claims, own much stock in American breweries, "are for beer" and French wine interests favor beer and light wines, among which are mentioned "the big army and navy professors who, with the liquor revenue gone, are forced to pay a direct tax."

Publicity for Churches
Lutheran seminaries are being taught the value of newspaper publicity in religious matters and are being taught to write copy that will be acceptable to newspapers. It was stated by F. P. Nickelsburg, New York, national publicity agent for the Walther League at the Milwaukee Convention.

Short courses in newspaper English and newspaper methods are being taught or advocated. "Pastors do not use the press as they should," Mr. Nickelsburg said.

"Pastors do not send in real news. An item stating that a preacher is going to preach at 10 o'clock Sunday is not news. But it would be news if he told what he was going to talk about. I have yet to find an editor, what-over his religious convictions were, who was not glad to get real church news."

Mr. Nickelsburg, who advocated paid advertising, "If a church can pay a preacher and an organist it ought to pay for publicity. The Lutheran church is going to do this. In three cities at present they buy space in the press and print sermonettes, feeling that these will reach and influence the non-churchgoer."

Japan Planning to Electrify Railroads
Tokyo.—Japan is planning to electrify her railroads. Electric engines will be used on the main lines for passenger trains.

Lake Superior Warm Enough for Bathing
Duluth, Minn.—For the first time in several years the waters of Lake Superior in the vicinity of the head of

the lake have been sufficiently warm this summer to permit bathing to a marked extent. The reason for this extreme change in temperature of the lake is attributed to the unusually mild winter of 1920-21 and the ensuing excessive heat.

In the Twin Ports the favorite bathing beaches are along Minnesota point. The lake is the most attractive for bathing and surf-boating when northern winds whip the waves far up on the point's beach. On other occasions, when the surface water is not stirred up, the lake's waters are cooler, and during the ordinary season are too cold to permit of enjoyable bathing.

ENTERTAINERS ARE PICKED FOR FAIR

Four Vaudeville Acts Chosen—Heads of Departments Are Appointed.

Four high class entertaining troupes will start their tour of Janesville this evening and night at the Janesville big fair and livestock exposition at the fair grounds here on Aug. 9 to and including Aug. 12. These acts will be staged in full view of those in the grandstand during intermissions in the regular program afternoon and evening.

Special lighting effects will be provided for the night show. The "rude" tiddler, is the first on the program. He specializes in comical musical and whistling imitations.

The Melford trio of French grotesque clowns will put on a series of eccentric and acrobatic stunts. They specialize in hand balancing including standing on an unsupported ball.

Tricks will be presented by the Borst troupe of Europeans. Comedy permeates all their work. They consist of two men and three women.

Society gymnastics plus grotesque comedy will be featured by the Crane family of three men and two women. They have two distinct acts of vaudeville.

Superintendents are chosen. Divisions of Janesville's big fair have been named by the officials. In choosing them, there has been practically no change from those who served last year. The same effort will be made to make the fair a complete success. They are:

Horses—William Zull and W. C. Duttie, both Janesville.

Cattle—Edward Duttie, Janesville.

Sheep—William T. Dooley, town of Janesville.

Pigs—J. P. McFarlane, Janesville.

Floral—Mrs. Edward Stabler, Janesville.

Educational—Miss Genevieve McGinley, Janesville.

Rural schools—O. D. Antle, Janesville.

Domestic—Miss Margaret Patterson, Janesville.

Art—Miss May Clark, Janesville.

Culinary—Mrs. A. Y. Schuster, Janesville.

Boys and Girls—R. T. Glasco and Allen B. West, Janesville.

Harness races—Charles S. Putnam, Janesville.

Sanitation Is Demanded.

Sanitation and cleanliness will again be a feature at the fair according to announcement by the managers. This is deemed one of the most essential factors in the success of the undertaking.

At the fair, visitors will be required to keep their benches in a sanitary condition at all times. Filth, refuse, garbage will be required to be placed in cans furnished for the purpose. The use of salt water from ice cream packing cases will be prohibited. All walks and drives will be kept clear of packing cases and cans. Only wholesome food will be permitted for sale.

The sanitary regulations extend this year to the concessionaires themselves. They will be required to keep their stalls in a sanitary condition and to keep their benches in a sanitary condition. Stalls must also be well kept up.

Shows of a demoralizing tendency will not be tolerated. Games of chance will be prohibited. Fair officials declare.

JUDA

(By Gazette Correspondent.)

Juda—The missionary society of the Baptist church met with Mrs. J. Dewey Davis and family departed Saturday for Holland, Ga., after visiting the former's parents, Mr. and Mrs. Albert Davis, Mrs. Beckington and on the sick list last week. The W. C. T. East Porter—Mrs. Thos. Stearns spent Friday afternoon with Mrs. Frank Boss. Mr. and Mrs. William Marosch, Janesville, spent Thursday evening at the home of the latter's parents, Mr. and Mrs. Thos. Ford. Mr. and Mrs. Chas. N. Moore, daughter, Goldie, and Miss Sadie Kelly were Sunday visitors with relatives in Edgerton. Mr. and Mrs. Jerome Collins and son, John, Janesville, were guests at the Thos. Stearns home Sunday. Russell Schoenfeldt, Edgerton, has been assisting C. H. Bates with his farm work the past week. Joe Mullooney spent Sunday with friends in Edgerton. Mrs. Ella Moore, Stoughton, was a visitor at the home of her sister, Mrs. Robert Ford, Friday. Verne Boss was a Chicago visitor Saturday.

Orfordville

Orfordville—A miscellaneous shower was given at the Lutheran church parlors Saturday afternoon for Miss Mabel Osgard, in honor of her coming marriage to Walter Amoth, Cooperstown, N. D. Miss Osgard is the daughter of Mr. and Mrs. M. O. Osgard. The bride will be married on August 13. She is now a student in the school for mechanics at Madison. Miss Lillian Burdick is spending the week at the home of her brother, Byron, Milwaukee. The Lambert Players have created a large tent in the village and will give a three days' play under the auspices of the American Legion. They come highly recommended. Miss Blanche Lee has returned from a visit to her friends, where she spent two weeks with friends. Rev. Ivar Ramsch went to Madison Thursday to attend the convention of the Young People's society. The Lutheran church, Gertrude Mahlum and Palma Smestad were sent as delegates from the local society. Rev. M. A. Drew and wife visited old parishioners here Tuesday. They are now located near Darabon in the West Wisconsin conference. A number of past masters from the local lodge of Odd Fellows went to Janesville Wednesday evening to attend a meeting of past masters of the district. Rev. Egan, who was called to Antigo by the serious illness and death of his wife, returned to Orfordville Monday evening. Miss Lucille Ward, Janesville, is visiting friends here. Dr. S. P. Forbush accompanied John and Luella Smiley to Beloit Wednesday, where he removed their tonsils. Charles Taylor and W. E. Tordoff transacted business in Janesville Wednesday afternoon. Fred Cole and family, who have been camping on Sugar river in the town of Newark for the past three weeks, have returned home.

WALWORTH

(By Gazette Correspondent.)

Walworth—Miss DeBrie McMillan entertained Thursday evening for Miss Florence Rittenberg, Cleveland, O. The following were present: Mrs. J. A. Seeman and son Jack, Mrs. Max Davidson and son, John, Mrs. Robert Kingley and daughter, Janet, and Mr. and Mrs. C. Schulz. Alden—Mahlon Colburn suffered a severe stroke of paralysis Friday morning. Mr. and Mrs. Archie Traver are rejoicing over the arrival of a daughter, born Thursday. Miss Lila Edmonds is not as well as usual and may go west in hopes to benefit her health. The ladies Aid society of the Congregational church spent Thursday with Mrs. L. Laurson. Miss Florence Rittenberg, who is doing settlement work in Cleveland and who taught music in our school a year ago, is visiting at the W. B. McMillan home. R. L. Ridout and men are painting the Wayside Inn. W. B. Gates and men are doing the carpenter repairing. This will add much to the appearance of the building. Miss Annie Christensen, who is working at the lake, called on friends here Wednesday. Miss Ida Sternberg spent a few days in Chicago the past week. The little daughter of George McMillan is ill. Mr. and Mrs. Lyle Kinney spent Wednesday in Janesville. The Farmers Co-operative company held an important business meeting in Woodbine hall Wednesday night. The company will accept the milk price and stand by its contract. Miss Batcheleff, Lynn, is visiting Mrs. Lele Rowbotham. Carol Rowbotham has been discharged from the army and is at his home in Beloit. Mrs. E. S. Merwin and Miss DeBrie McMillan were Sharon callers Friday afternoon. The Young Ladies' auxiliary spent Friday at the Oscar Thomas home.

JUDA

(By Gazette Correspondent.)

Juda—The missionary society of the Baptist church met with Mrs. J. Dewey Davis and family departed Saturday for Holland, Ga., after visiting the former's parents, Mr. and Mrs. Albert Davis, Mrs. Beckington and on the sick list last week. The W. C. T. U. met with Mrs. J. W. McElwaine Friday. Miss Anna Amos, who had been at the Prospect hospital for some time, returned home Wednesday. The annual picnic of the W. C. T. U. of Lafayette and Green counties will be held in Dill Friday. Charles Hall has sold his home to present John M. Hall and family will move to Monroe. A party of young ladies went to Decatur parks Monday to camp. Mrs. August Swartzlow is ill. The R. N. A. met at the hall Tuesday evening.

WILLOWDALE

(By Gazette Correspondent.)

Willowdale—Miss Harriet Lay returned to her home in Edgerton, after visiting at the home of her sister, Mrs. J. T. Mooney. Miss Harriet Lay is enjoying her vacation. Mrs. F. G. Gaudin, sons, Robert and Harold, and daughter, Goldie, were guests of relatives here Sunday. Josephine Mooney went to Jefferson Tuesday, where she will work for the Wisconsin Telephone company a short time during the absence of one of the company's operators. Mrs. Fred Marsh and Mrs. Glenn Hughes, Janesville, spent Monday afternoon at the C. M. Smith home. A number from here attended the funeral of Mrs. James Conway in Janesville Monday morning.

EAST PORTER

TOWNLEY OUT AS N. P. LEAGUE BOSS

No Longer Recognized as Head of Party in That State.

Parke, N. D. At least one definite proposition has developed out of the bitter family fight in which the Non-partisan League leaders have become involved in the last two weeks, and that is that A. Townley no longer has a hand in the management of league affairs in this state.

The passing of Townley as the dictator of league politics took place some time ago, but it was not until the late of June that the idea of William Lemke to the power and authority that Townley once wielded.

Townley Not Even Consulted.

Throughout the fight that the leaders have conducted against one another for the last two weeks Townley's wishes or desires have at no time been consulted by either faction. Having wings apparently are entitled to have their say in the situation.

To better understand the present status of the league organization in North Dakota, it is necessary to know what has happened in the last year. At the time the Non-partisan League branched out and undertook to become a national rather than a state organization, Townley was impressed with the idea and opportunity of carrying to the nation as a whole the idea of league organization he had so successfully put over in North Dakota. He devoted his attention to Minnesota, South Dakota, Kansas, Nebraska and far western states and left North Dakota affairs to the management of William Lemke, his aid. When Townley returned to North Dakota about a year ago he found that his own power had waned and that, in fact, Lemke was sitting on the throne.

Threatened to Leave the State.

The first open break came at the conclusion of the general election campaign in 1920. Mr. Townley had toured the state in the interests of the league ticket and a series of talks had become very threatening against these political factions in the state which frowned on the league and were seeking the election of anti-league candidates. He made some very specific threats as to what would happen to merchants and others and on more than one occasion asserted he would make it his own personal business to see that those who differed from the league were driven out of the state.

Put the Blame on Townley.

At a conference of league workers held in Fargo a day or two after the election, and when it was known that Lynn J. Frazier had been re-elected governor by a majority of less than five thousand, league men opened fire on Townley. They criticized him harshly and charged him with responsibility for the declining power of the league. They asserted to him that his campaign talks had been damaging and injurious to the league cause and insisted that if he had been out of it entirely Frazier's victory would have been much more pronounced.

Subsequently the retirement of Ray Craig as state manager of the league in North Dakota marked the actual parting of the ways. Craig was Townley's personally appointed state manager. He was on a \$10,000 a year salary and when he went out league workers antagonistic to Townley hailed his going as the event of the new day in league affairs. From that point on the league management has been in the hands of Lemke and men of his selection.

Once since then Townley undertook to direct policies in this state. He had been engaged in organization work for the league in Nebraska and Kansas when a series of bank closings in North Dakota precipitated a situation inimical to his continued success in lining up farmers at \$15 each in the southern states.

To his mind, it became necessary that radical changes be made to the end that the North Dakota financial situation be cleaned up and he went to Bismarck in support of a compromise proposition that had been offered by a group of North Dakota bankers. The proposition in brief, contemplated the readjustment of the so-called league program on such basis as would restrict the state to the establishment of only one flour mill and grain elevator already in the course of construction at Grand Forks. It contemplated the abandonment of the home builders' association and anticipated the curtailment of the bank of North Dakota to a farm loan business exclusively.

Townley went before league members of the legislature in support of that proposition and got only a handful of votes, for the league was controlled entirely by William Lemke, who, by this time, had become attorney general.

Read Him Out of Party.

In the attempt of Townley to obtain changes in the league program, very pointed statements were printed in the Fargo league paper which, in effect, read Townley out of his party. Townley still has a few friends among the league workers and some day they hope that conditions will so develop that they will be able to return to the state and resume the leadership of the league. It is an ambition—the realization of which Lemke and his friends are valiantly striving to prevent.

Parke Falls.—George Wolf, 17, is dead as the result of gunshot wounds. A bullet from a .22 rifle, discharged at a squirrel, glanced from a tree and struck him in the abdomen. O'Malley was arrested here on a charge of arson. It is alleged she willfully set fire to her home on July 22. A hearing has been set for July 25. She is in jail.

WORDS MEANINGS EXPANDED BY STUDY

Simplest Phrase Often Contains Great Beauties of Sentiment.

We sometimes speak of a "kind" person, a thing of the same "kind" and again of "man-kind," but do we ever reflect that the three words come from the same root? That wonderful genius, Shakespeare, meant more than a mere play on words when he put into Hamlet's mouth—who was alluding to his father's brother—"A little more than kin, and less than kind."

A "kind" person is one who treats other people as his kindred and by his words or actions confesses his kinship. Things of the "same kind" are of the same family. "Man-kind" include the whole human race. The meaning that gradually unfolds itself as a flower develops, leaf by leaf, is therefore significant and beautiful. Words we use today mean to other things centuries ago. But there is always a reason for it. Language is not a mere haphazard growth but a logical development, inseparable with the historic development and growth of a people.

Only a few days remain in which the New Universities Dictionary may be secured and the offer cannot be renewed. Play for terms on which it can be secured, practically as a gift, readers are directed to the coupon appearing daily in this paper and to the display announcements.

WIVES GET WORSE; AMBROSE, 91, SAYS THIRD IS NO GOOD

Chicago.—Ambrose Ross, 91, granted a decree of divorce from his third wife, asserted Friday that "women were getting worse with every generation."

His first wife was pretty good," he said, "my second was just medium and the third no good at all."

He asserts he is through with them all.

JAVA TO GET OIL CURE FOR LEPROSY

Honolulu, T. H.—The chaulmoogra specific for leprosy and its method of use, perfected in the laboratories of the University of Hawaii and in the Kathali leper station here, are to be introduced in the leper colonies of Java.

Dr. C. D. de Langen, lecturer at the Netherlands government medical school in Batavia, Java, paused here recently on his way to Batavia after a year of lecturing at the University of Amsterdam. He characterized results obtained, illustrated in the release of scores of former lepers on parole, as splendid.

Dr. de Langen added the method of administering injections of the specific developed here had reduced pain to a minimum and thus eliminated one of the great obstacles to successful treatment of leprosy.

Sponges Assist Dry Enforcement Agents

New York.—Sponges are assisting enforcement of prohibition in New York. Samuel Toshun, a city detective, says he always carries one when engaged in liquor raids. He told a magistrate Friday that he enabled him to salvage evidence when the illegal possessor of liquor spilled the liquid. As a result Joseph Preola, who the detective says, dashed a bottle to the floor when the other appeared in his apartment, was held for a hearing. Two dabs and two squeezes filled a handy empty ink well with evidence.

MILK PRODUCERS TAKE SHARP ACTION

(Continued from Page 1.)

by their demands that the Janesville Pure Milk company make back payments from June 1 to July 15 and both the Janesville Pure Milk company and the Cronin company be made to pay the "spread charges" now being held in Janesville, which amount to more than \$2,000.

Outlook for Milk.

When a vote was taken on whether producers would refuse to deliver milk to the Pure Milk company, aiding them in the strike, every producer stood up and made the pledge. This is the means taken by the farmers to curb the supply, for it was contended both the Shurtzoff company and the Cronin company had been furnishing milk and refused to promise to hold their own milk, but divide it up.

"It is out the other fellow's neck if he tries to cut yours," declared E. J. Downes. "Make them play fair or go without milk. Draw the lines tight and hold on to the limit to win."

The Chicago marketing company has allowed for the flow of Janesville milk in Beloit and on Friday about 5,000 pounds were sent to Beloit.

Lines Drawn Tight.

Arrangements are pending to take

care of the milk of farmers not members of the association, to be paid for at marketing company prices instead of on a butter-fat basis during the strike.

The strike was ordered by the officers of the marketing company and full support has been promised the Janesville associations. Consequently it is up to the marketing company to take care of the Janesville milk if the strike became general and the farmers stop delivery to the two other distributors here.

The one week link in the forces of the producers is the question of what the Chicago marketing company will do on the enforcement of a two price schedule. If two prices are agreed upon for July or August instead of a uniform pooled price on a fluid milk basis, there is going to be trouble to hold the marketing company members. Two prices for Southern Wisconsin means all the dairy-men will receive from \$1.40 to \$1.50 a hundred-weight.

Watch Milk Delivery.

Delivery of milk to the Pure Milk company is being watched each morning, to determine the source of supply.

Then the producers and marketing company agents will seek to stop the supply.

"We want it understood that if necessary we will distribute milk out to the people of Janesville and at a price

less than 11 cents a quart," said Hugh C. Hemmingsway.

Trouble is pending over the demand that the Cronin and Pure Milk companies send in the spread charges alleged to be due to the marketing company. The producers say they will force payment of the spread or bring suit against Henry Casey.

"They took spread charges out of the checks and then failed to send them in," it was declared. "That money does not belong to them and is being held too long in Janesville. We'll get that money or sue in the courts."

There was enthusiasm and hand-clapping when speakers urged the starting of a cooperative distributing plant. The majority of producers present signed for from \$100 to \$200 for starting such a plant. This has been talked of by farmers for more than a year.

R. C. Kent, officer of the Chicago marketing company spoke to the farmers, detailing the need of united action.

"You farmers have been building milk plants to long for they are built on profits made off your milk," said Mr. Kent. "It is time you got the deeds to these plants and run them yourselves. The farmer today should work eight hours and spend eight hours marketing his

product, for he has to work 16 hours a day anyway."

Declaring that farm products had lost their purchasing power from \$0 to 25 per cent, the speaker stated, "the farmer can stand low prices if the other fellow stands the same reduction. Laboring wages must come down to meet the common level of agriculture produce. The consumer in Janesville did not see the milk price come down when the Pure Milk company cut the price on raw milk."

In this manner the producers decided to prosecute the Janesville

milk strike. Trucks of the distributors are being followed and dairy-men watched in an attempt to prevent sale. The name of John E. Kennedy was mentioned during the meeting as having aided the Pure Milk company obtain milk on Wednesday and Thursday.

"He offered five dollars for delivery of milk and even was generous enough to offer one farmer \$15 to get milk," it was declared. "Kennedy better confine his attention to Janesville police politics or he will get in bad—more so than he is in Janesville."
